

# Resilient

## Resilience

*Look up resilience, resilient, resiliency, or résilience in Wiktionary, the free dictionary. Resilience, resilient, or resiliency may refer to: Ecological*

Resilience, resilient, or resiliency may refer to:

## Resilient Lady

*Resilient Lady is a cruise ship that is operated by Virgin Voyages. At 110,000 GT and measuring 278 metres (912 ft) long for a capacity of 2,770 passengers*

Resilient Lady is a cruise ship that is operated by Virgin Voyages. At 110,000 GT and measuring 278 metres (912 ft) long for a capacity of 2,770 passengers, she was built with similar proportions to her older sisters Scarlet Lady and Valiant Lady.

## The Pirate Bay

*on 3 May 2014. bkp (31 July 2007). &quot;The Pirate Bay*

The galaxy's most resilient bittorrent site&quot;. TPB Blog. Archived from the original on 22 April 2014 - The Pirate Bay, commonly abbreviated as TPB, is a free searchable online index of movies, music, video games, pornography and software. Founded in 2003 by Swedish think tank Piratbyrå, The Pirate Bay facilitates the connection among users of the peer-to-peer torrent protocol, which are able to contribute to the site through the addition of magnet links. The Pirate Bay has consistently ranked as one of the most visited torrent websites in the world.

Over the years the website has faced several server raids, shutdowns and domain seizures, switching to a series of new web addresses to continue operating. In multiple countries, Internet service providers (ISPs) have been ordered to block access to it. Subsequently, proxy websites have emerged to circumvent the blocks.

In April 2009, the website's founders Fredrik Neij, Peter Sunde and Gottfrid Svartholm were found guilty in the Pirate Bay trial in Sweden for assisting in copyright infringement and were sentenced to serve one year in prison and pay a fine. They were all released by 2015 after serving shortened sentences.

The Pirate Bay has sparked controversies and discussion about legal aspects of file sharing, copyright, and civil liberties and has become a platform for political initiatives against established intellectual property laws as well as a central figure in an anti-copyright movement.

## Psychological resilience

*factors, fostering positive emotions, and promoting self-compassion. A resilient person uses &quot;mental processes and behaviors in promoting personal assets*

Psychological resilience, or mental resilience, is the ability to cope mentally and emotionally with a crisis, or to return to pre-crisis status quickly.

The term was popularized in the 1970s and 1980s by psychologist Emmy Werner as she conducted a forty-year-long study of a cohort of Hawaiian children who came from low socioeconomic status backgrounds.

Numerous factors influence a person's level of resilience. Internal factors include personal characteristics such as self-esteem, self-regulation, and a positive outlook on life. External factors include social support systems, including relationships with family, friends, and community, as well as access to resources and opportunities.

People can leverage psychological interventions and other strategies to enhance their resilience and better cope with adversity. These include cognitive-behavioral techniques, mindfulness practices, building psychosocial factors, fostering positive emotions, and promoting self-compassion.

## Apache Spark

*maintained it since. Apache Spark has its architectural foundation in the resilient distributed dataset (RDD), a read-only multiset of data items distributed*

Apache Spark is an open-source unified analytics engine for large-scale data processing. Spark provides an interface for programming clusters with implicit data parallelism and fault tolerance. Originally developed at the University of California, Berkeley's AMPLab starting in 2009, in 2013, the Spark codebase was donated to the Apache Software Foundation, which has maintained it since.

## Supply chain resilience

*planet Earth). For example, Tesla's supply chain can be described as resilient because it reflects the transformation from internal combustion engines*

Supply chain resilience is "the capacity of a supply chain to persist, adapt, or transform in the face of change".

## Resilient Packet Ring

*Resilient Packet Ring (RPR), as defined by IEEE standard 802.17, is a protocol designed for the transport of data traffic over optical fiber ring networks*

Resilient Packet Ring (RPR), as defined by IEEE standard 802.17, is a protocol designed for the transport of data traffic over optical fiber ring networks. The standard began development in November 2000 and has undergone several amendments since its initial standard was completed in June 2004. The amended standards are 802.17a through 802.17d, the last of which was adopted in May 2011. It is designed to provide the resilience found in SONET and Synchronous Digital Hierarchy networks (50 ms protection) but, instead of setting up circuit oriented connections, provides a packet based transmission, in order to increase the efficiency of Ethernet and IP services.

## Coalition for Disaster Resilient Infrastructure

*The Coalition for Disaster Resilient Infrastructure (CDRI) is an international coalition of countries, United Nations (UN) agencies, multilateral development*

The Coalition for Disaster Resilient Infrastructure (CDRI) is an international coalition of countries, United Nations (UN) agencies, multilateral development banks, the private sector, and academic institutions, that aims to promote disaster-resilient infrastructure. Its objective is to promote research and knowledge sharing in the fields of infrastructure risk management, standards, financing, and recovery mechanisms. It was launched by the Indian Prime Minister Narendra Modi at the 2019 UN Climate Action Summit in September 2019.

CDRI's initial focus is on developing disaster-resilience in ecological, social, and economic infrastructure. It aims to achieve substantial changes in member countries' policy frameworks and future infrastructure

investments, along with a major decrease in the economic losses suffered due to disasters.

Today, or as of 2023, the CDRI has 55 members, incl. 47 member states, such as Argentina, Australia, Brazil, Canada, Chile, France, Germany, India, Italy, Japan, the United Kingdom and the United States.

Algeria, Egypt, Malaysia, Mexico, Norway, Pakistan, the Republic of Korea, Spain and Switzerland were invited. The nine, however, are pending membership approval.

Resilient (Katy Perry song)

*"Resilient" is a song by American singer Katy Perry from her sixth studio album, Smile (2020). It is a pop song written by Perry and Ferras Alqaisi, as*

"Resilient" is a song by American singer Katy Perry from her sixth studio album, Smile (2020). It is a pop song written by Perry and Ferras Alqaisi, as well as its producers Tor Erik Hermansen and Mikkel Storleer Eriksen, who produced under the Stargate name. The song was originally recorded at the Stellar House in Venice, California. A Tiësto remix of the song featuring Aitana was released as a promotional single on November 17, 2020.

Upon the release of Smile, the song received positive reviews from music critics. Commercially, the song's remix charted at number 56 on the PROMUSICAE charts in Spain and peaked at number 27 on the Ultratip Bubbling Under charts in Belgium. The song was also certified Gold by Pro-Música Brasil for equivalent sales of 20,000 units in Brazil. The accompanying music video for the song was released on the 31st of August, 2020, as an installment in the Smile Video Series.

Overlay network

*addressing, security and quality of service. Other optional attributes include resiliency, encryption and bandwidth control. Many telcos use overlay networks to*

An overlay network is a logical computer network that is layered on top of a physical network. The concept of overlay networking is distinct from the traditional model of OSI layered networks, and almost always assumes that the underlay network is an IP network of some kind.

Some examples of overlay networking technologies are, VXLAN, BGP VPNs, and IP over IP technologies, such as GRE, IPSEC tunnels, or SD-WAN.
