Body language is a type of nonverbal communication in which physical behaviors, as opposed to words, are used to express or convey information. Such behavior includes facial expressions, body posture, gestures, eye movement, touch and the use of space. Although body language is an important part of communication, most of it happens without conscious awareness. In social communication, body language often complements verbal communication. Nonverbal communication has a significant impact on doctor-patient relationships, as it affects how open patients are with their doctor.

As an unstructured, ungrammatical, and broadly-interpreted form of communication, body language is not a form of language. It differs from sign languages, which are true languages with complex grammar systems and exhibiting the fundamental properties considered to exist in all languages.

Some researchers conclude that nonverbal communication accounts for the majority of information transmitted during interpersonal interactions. It helps to establish the relationship between two people and regulates interaction, yet it can be ambiguous. The interpretation of body language tends to vary in different cultural contexts. Within a society, consensus exists regarding the accepted understandings and interpretations of specific behaviors. However, controversy exists on whether body language is universal. The study of body language is also known as kinesics.

The rise of different technologies has led to humans adapting to non-face-to-face communication, for example, while texting, it can challenge to decode the messages because body language cues like tone and eye contact are not present. With the introduction of texting, humans have adapted to using new ways to demonstrate body language cues, for example, the use of emoticons.

No Jacket Required is the third solo studio album by the English drummer and singer-songwriter Phil Collins. It was released on 18 February 1985 by Virgin Records in the UK and by Atlantic and WEA internationally.

After finishing touring commitments with Genesis and working with Eric Clapton in 1984, Collins resumed his solo career and started work on a new album. He made a conscious decision to write more uptempo and dance-oriented songs, as much of his previous material was influenced by matters surrounding his first divorce. The album features Helen Terry, Peter Gabriel, and Sting as guest backing vocalists. Some songs, like "Don't Lose My Number" and "Sussudio", were based around improvisation, and others, like "Long Long Way to Go", had a political message.

No Jacket Required was received favourably by the majority of critics and was a huge worldwide commercial success, reaching number one in the UK for five consecutive weeks and for seven non-consecutive weeks in the US. It was the second-best-selling album of 1985 in the UK, behind Dire Straits' Brothers in Arms. "One More Night", "Sussudio", "Don't Lose My Number" and "Take Me Home" were released as singles with corresponding music videos. All four were top ten hits on the Billboard Hot 100 chart, with "Sussudio" and

"One More Night" reaching number one. The three singles released in the UK all reached the top 20. Some tracks were featured on the television shows *Miami Vice* and *Cold Case*, and "The Man with the Horn" was re-written and re-recorded for the episode "Phil the Shill".

In 2001, *No Jacket Required* was certified Diamond by the Recording Industry Association of America for selling 12 million copies in the US and amassed worldwide sales of over 25 million copies, making it one of the best-selling albums of all time. It won three Grammy Awards, including Album of the Year. The *No Jacket Required* World Tour saw Collins perform 85 concerts which culminated with a performance at both Live Aid shows in London and Philadelphia. Remixes of six songs from the album were released on the compilation *12"ers* (1987). In 2010, it was among ten albums nominated for the best British album of the previous 30 years by the Brit Awards. It ranked No. 74 on the Rock and Roll Hall of Fame's "Definitive 200" list. A remastered deluxe edition with updated artwork and bonus tracks was released in 2016.

Philip David Charles Collins (born 30 January 1951) is an English musician, songwriter, record producer and actor. He was the drummer and later became the lead singer of the rock band Genesis and had a successful solo career, achieving three UK number-one singles and seven US number-one singles as a solo artist. In total, his work with Genesis, other artists and solo resulted in more US top-40 singles than any other artist throughout the 1980s. His most successful singles from the period include "In the Air Tonight", "Against All Odds (Take a Look at Me Now)", "One More Night", "Sussudio", "Another Day in Paradise", "Two Hearts" and "I Wish It Would Rain Down".

Born and raised in west London, Collins began playing drums at the age of five. During the same period he attended drama school, which helped secure various roles as a child actor. His first major role was the Artful Dodger in the West End production of the musical *Oliver!*. As an accomplished professional actor by his early teens, he pivoted to pursue a music career, becoming the drummer for Genesis in 1970. He took over the role of lead singer in 1975 following the departure of Peter Gabriel. During the second half of the 1970s, in between Genesis albums and tours, Collins was the drummer of jazz rock band Brand X. While continuing to perform and record with Genesis, Collins began a successful solo career in the 1980s, initially inspired by his marital breakdown and love of soul music, releasing the albums *Face Value* (1981), *Hello, I Must Be Going* (1982), *No Jacket Required* (1985) and *...But Seriously* (1989). Collins became, in the words of AllMusic, "one of the most successful pop and adult contemporary singers of the '80s and beyond". He became known for a distinctive gated reverb drum sound on many of his recordings. He played drums on the 1984 charity single "Do They Know It's Christmas?" and, in July 1985, he was the only artist to perform at both Live Aid concerts. He resumed his acting career, appearing in *Miami Vice* and subsequently starring in the film *Buster* (1988).

Collins left Genesis in 1996 to focus on solo work; this included writing songs for Disney's animated film *Tarzan* (1999), for which he wrote and performed the songs "Two Worlds", "Son of Man", "Strangers Like Me" and "You'll Be in My Heart", the last of which earned him the Academy Award for Best Original Song. He rejoined Genesis for their *Turn It On Again* Tour in 2007. Following a five-year retirement to focus on his family life, Collins released his memoir in 2016 and conducted the *Not Dead Yet* Tour from 2017 to 2019. He then rejoined Genesis in 2020 for a second and final reunion tour, which ran from 2021 to 2022.

Collins's discography includes eight studio albums that have sold 33.5 million certified units in the US and an estimated 150 million records sold worldwide, making him one of the world's best-selling artists. He is one of only three recording artists, along with Paul McCartney and Michael Jackson, who have sold over 100 million records both as solo artists and separately as principal members of a band. He has won eight Grammy Awards, six Brit Awards (winning Best British Male Artist three times), two Golden Globe Awards, one

Academy Award and a Disney Legend Award. He was awarded six Ivor Novello Awards from the British Academy of Songwriters, Composers and Authors, including the International Achievement Award. He received a star on the Hollywood Walk of Fame in 1999 and was inducted into the Songwriters Hall of Fame in 2003 and the Rock and Roll Hall of Fame as a member of Genesis in 2010. Ranked by Rolling Stone at number 43 in the 100 Greatest Drummers of All Time, he was inducted into the Modern Drummer Hall of Fame in 2012 and the Classic Drummer Hall of Fame in 2013.

3 Body Problem is an American science fiction television series created by David Benioff, D. B. Weiss and Alexander Woo. The third streaming adaptation of the Chinese novel series Remembrance of Earth's Past by former computer engineer Liu Cixin, its name comes from its first volume, The Three-Body Problem, named after a classical physics problem dealing with Newton's laws of motion and gravitation. The eight-episode first season was released on Netflix on March 21, 2024.

The series follows a diverse cast of characters, primarily scientists, who all come into contact with an extraterrestrial civilization, leading to various threats and humanity-wide changes. While the two previous series adaptations, the animated The Three-Body Problem in Minecraft (2014–2020) and the live-action Three-Body (2023), were exclusively in the novels' original Mandarin, 3 Body Problem is mostly in English and modifies part of the original works' Chinese setting to include foreign characters and locations, mainly the United Kingdom.

Benioff and Weiss' first television project since the conclusion of their series Game of Thrones (2011–2019), it received positive reviews, with praise towards its cast, ambition and production values. The series received six Primetime Emmy Award nominations, including Outstanding Drama Series. In May 2024, the series was renewed for a second and third season.

Cheugy (CHOO-ghee) is an American spoonerism of Gucci coined in 2013 as a pejorative description of lifestyle trends associated with the early 2010s. This aesthetic has been described as "the opposite of trendy" or "trying too hard". The term has been used positively by some who identify with the aesthetic.

People who are cheugy are referred to as cheugs. Things described as cheugy include "mom jeans", "live, laugh, love signs", "Minion memes", and "anything that says 'girl boss' on it". While it has been compared to being basic, some sources have suggested that it is "not quite 'basic'". The Evening Standard said that "the cheug's logical archnemesis is probably the hipster".

Mark Bowden is an English author on body language and human behavior. His techniques have been used by Canadian Prime Minister Stephen Harper.

His work is derived from evolutionary psychology, behavioral psychology and embodied cognition. One claim by Bowden is GesturePlane System, or the specific use of open palm hand gestures in what he coins as the "TruthPlane" (the horizontal plane at navel height on the human body) to create feelings of trust, credibility, and confidence when communicating. This was described in his 2010 book, *Winning Body Language*.

Watts family murders

In the early hours of August 13, 2018, in Frederick, Colorado, Christopher Lee Watts murdered his pregnant wife Shanann (34) by strangulation, and their two children Bella (4) and Celeste (3) by suffocation. He buried Shanann in a shallow grave near an oil-storage facility, and dumped his children's bodies into crude oil tanks. Watts initially maintained his innocence in his family's disappearance, but was arrested on August 15, after confessing in an interview with detectives to murdering Shanann. Months later, he also admitted to murdering his children.

On November 6, 2018, Watts pleaded guilty to multiple counts of first-degree murder as part of a plea deal when the death penalty (which was later abolished in Colorado in 2020) was removed from sentencing. He was sentenced to five life sentences without the possibility of parole, three to be served consecutively.

Michael Collins (Irish: Mícheál Ó Coileáin; 16 October 1890 – 22 August 1922) was an Irish revolutionary, soldier and politician who was a leading figure in the early-20th century struggle for Irish independence. During the War of Independence he was Director of Intelligence of the Irish Republican Army (IRA) and a government minister of the self-declared Irish Republic. He was then Chairman of the Provisional Government of the Irish Free State from January 1922 and commander-in-chief of the National Army from July until his death in an ambush in August 1922, during the Civil War.

Collins was born in Woodfield, County Cork, the youngest of eight children. He moved to London in 1906 to become a clerk in the Post Office Savings Bank at Blythe House. He was a member of the London GAA, through which he became associated with the Irish Republican Brotherhood and the Gaelic League. He returned to Ireland in January 1916 and fought in the Easter Rising. He was taken prisoner and held in the Frongoch internment camp as a prisoner of war, but he was released in December 1916.

Collins subsequently rose through the ranks of the Irish Volunteers and Sinn Féin. He was elected as MP for South Cork in December 1918. Sinn Féin's elected members (later known as TDs) formed an Irish parliament, the First Dáil, in January 1919 and declared the independence of the Irish Republic. Collins was appointed Minister for Finance. In the ensuing War of Independence, he was Director of Organisation and Adjutant General for the Irish Volunteers, and Director of Intelligence of the IRA. He gained fame as a guerrilla warfare strategist, planning many successful attacks on British forces together with 'the Squad', such

as the "Bloody Sunday" assassinations of key British intelligence agents in November 1920.

After the July 1921 ceasefire, Collins was one of five plenipotentiaries sent by the Dáil cabinet at the request of Éamon de Valera, to negotiate peace terms in London. The resulting Anglo-Irish Treaty, signed in December 1921, would establish the Irish Free State but depended on an oath of allegiance to the Crown. De Valera and other republican leaders found this clause of the treaty most difficult to accept. Collins viewed the treaty as offering "the freedom to achieve freedom", and helped persuade a majority of the Dáil to ratify the treaty. A provisional government was formed under his chairmanship in early 1922. During this time he secretly provided support for an IRA offensive in Northern Ireland. It was soon disrupted by the Irish Civil War, in which Collins was commander-in-chief of the National Army. He was shot and killed in an ambush by anti-Treaty forces in August 1922.
