Extending the framework defined in *IS IT A SCAM*, the authors transition into an exploration of the methodological framework that underpins their study. This phase of the paper is defined by a systematic effort to align data collection methods with research questions. Through the selection of qualitative interviews, *IS IT A SCAM* embodies a nuanced approach to capturing the underlying mechanisms of the phenomena under investigation. What adds depth to this stage is that, *IS IT A SCAM* details not only the research instruments used, but also the rationale behind each methodological choice. This transparency allows the reader to assess the validity of the research design and acknowledge the credibility of the findings. For instance, the participant recruitment model employed in *IS IT A SCAM* is carefully articulated to reflect a meaningful cross-section of the target population, mitigating common issues such as nonresponse error. In terms of data processing, the authors of *IS IT A SCAM* rely on a combination of computational analysis and longitudinal assessments, depending on the variables at play. This multidimensional analytical approach not only provides a more complete picture of the findings, but also enhances the paper's main hypotheses. The attention to detail in preprocessing data further illustrates the paper's dedication to accuracy, which contributes significantly to its overall academic merit. What makes this section particularly valuable is how it bridges theory and practice. *IS IT A SCAM* goes beyond mechanical explanation and instead weaves methodological design into the broader argument. The outcome is a harmonious narrative where data is not only displayed, but interpreted through theoretical lenses. As such, the methodology section of *IS IT A SCAM* functions as more than a technical appendix, laying the groundwork for the discussion of empirical

results.
