Israel, officially the State of Israel, is a country in the Southern Levant region of West Asia. It shares borders with Lebanon to the north, Syria to the north-east, Jordan to the east, Egypt to the south-west and the Mediterranean Sea to the west. It occupies the Palestinian territories of the West Bank in the east and the Gaza Strip in the south-west, as well as the Syrian Golan Heights in the northeast. Israel also has a small coastline on the Red Sea at its southernmost point, and part of the Dead Sea lies along its eastern border. Its proclaimed capital is Jerusalem, while Tel Aviv is its largest urban area and economic centre.

Israel is located in a region known as the Land of Israel, synonymous with Canaan, the Holy Land, the Palestine region, and Judea. In antiquity it was home to the Canaanite civilisation, followed by the kingdoms of Israel and Judah. Situated at a continental crossroad, the region experienced demographic changes under the rule of empires from the Romans to the Ottomans. European antisemitism in the late 19th century galvanised Zionism, which sought to establish a homeland for the Jewish people in Palestine and gained British support with the Balfour Declaration. After World War I, Britain occupied the region and established Mandatory Palestine in 1920. Increased Jewish immigration in the lead-up to the Holocaust and British foreign policy in the Middle East led to intercommunal conflict between Jews and Arabs, which escalated into a civil war in 1947 after the United Nations (UN) proposed partitioning the land between them.

After the end of the British Mandate for Palestine, Israel declared independence on 14 May 1948. Neighbouring Arab states invaded the area the next day, beginning the First Arab–Israeli War. An armistice in 1949 left Israel in control of more territory than the UN partition plan had called for; and no new independent Arab state was created as the rest of the former Mandate territory was held by Egypt and Jordan, respectively the Gaza Strip and the West Bank. The majority of Palestinian Arabs either fled or were expelled in what is known as the Nakba, with those remaining becoming the new state's main minority. Over the following decades, Israel's population increased greatly as the country received an influx of Jews who emigrated, fled or were expelled from the Arab world.

Following the 1967 Six-Day War, Israel occupied the West Bank, Gaza Strip, Egyptian Sinai Peninsula and Syrian Golan Heights. After the 1973 Yom Kippur War, Israel signed peace treaties with Egypt—returning the Sinai in 1982—and Jordan. In 1993, Israel signed the Oslo Accords, which established mutual recognition and limited Palestinian self-governance in parts of the West Bank and Gaza. In the 2020s, it normalised relations with several more Arab countries via the Abraham Accords. However, efforts to resolve the Israeli–Palestinian conflict after the interim Oslo Accords have not succeeded, and the country has engaged in several wars and clashes with Palestinian militant groups. Israel established and continues to expand settlements across the illegally occupied territories, contrary to international law, and has effectively annexed East Jerusalem and the Golan Heights in moves largely unrecognised internationally. Israel's practices in its occupation of the Palestinian territories have drawn sustained international criticism—along with accusations that it has committed war crimes, crimes against humanity, and genocide against the Palestinian people—from experts, human rights organisations and UN officials.

The country's Basic Laws establish a parliament elected by proportional representation, the Knesset, which determines the makeup of the government headed by the prime minister and elects the figurehead president. Israel has one of the largest economies in the Middle East, one of the highest standards of living in Asia, the world's 26th-largest economy by nominal GDP and 16th by nominal GDP per capita. One of the most technologically advanced and developed countries globally, Israel spends proportionally more on research

and development than any other country in the world. It is widely believed to possess nuclear weapons. Israeli culture comprises Jewish and Jewish diaspora elements alongside Arab influences.

The COVID-19 pandemic in Nepal was part of the worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The first case in Nepal was confirmed on 23 January 2020 when a 31-year-old student, who had returned to Kathmandu from Wuhan on 9 January, tested positive. It was also the first recorded case of COVID-19 in South Asia. Nepal's first case of local transmission was confirmed on 4 April in Kailali District. The first death occurred on 14 May. A country-wide lockdown came into effect on 24 March 2020, and ended on 21 July 2020. As of 26 July 2022, the Ministry of Health and Population (MoHP) has confirmed a total of 984,475 cases, 968,802 recoveries, and 11,959 deaths in the country. In the meantime, 5,804,358 real-time RT-PCR (RT-qPCR) tests have been performed in 40 laboratories across the country. The viral disease has been detected in all provinces and districts of the country, with Bagmati Province and Kathmandu being the worst hit province and district respectively. As for Nepalese abroad, as of 26 July 2020, the Non-Resident Nepali Association has reported a total of 12,667 confirmed cases, 16,190 recoveries, and 161 deaths across 35 countries.

Between January and March, Nepal took steps to prevent a widespread outbreak of the disease while preparing for it by procuring essential supplies, equipment and medicine, upgrading health infrastructure, training medical personnel, and spreading public awareness. Starting in mid-January, Nepal established health-desks at Tribhuvan International Airport as well as at border checkpoints with India. Land borders with India as well as China were later completely sealed off, and all international flights were suspended. All academic examinations were cancelled, and schools and colleges were closed. Quarantine centres and temporary hospitals are being set up across the country. Laboratory facilities are being upgraded and expanded. Hospitals have been setting up ICU units and isolation beds. The SAARC countries have pledged to cooperate in controlling the disease in the region. India, the United States and Germany increased their support to Nepali health sectors.

The pandemic forced Nepal to cancel the then ongoing Visit Nepal Year 2020 tourism campaign. The country's economy is expected to be severely affected due to the pandemic's impact on tourism, remittance, manufacturing, construction, and trade. The World Bank has warned that the pandemic could push about one-third of the country's population below the International Poverty Line (i.e., \$1.90 per day).

Vaccination for COVID-19 began in Nepal on 27 January 2021.

Heyman, Rowling, Steve Kloves and Lionel Wigram have produced all three films in the

Fantastic Beasts and Where to Find Them (2016) is the first film in the spin-off/prequel Fantastic Beasts series. A sequel, titled Fantastic Beasts: The Crimes of Grindelwald, was released on 16 November 2018. A third film, Fantastic Beasts: The Secrets of Dumbledore was released on 15 April 2022. Norman Birkett, 1st Baron Birkett

William Norman Birkett, 1st Baron Birkett, (6 September 1883 – 10 February 1962), was a British barrister, judge, politician and preacher who served as the deputy British judge during the Nuremberg Trials.

Birkett received his education at Barrow-in-Furness Higher Grade School. He was a Methodist preacher and a draper before attending Emmanuel College, Cambridge, in 1907, to study theology, history and law. Upon graduating in 1910 he worked as a secretary and was called to the Bar in 1913.

Declared medically unfit for military service during World War I, Birkett used the time to make up for his late entry into the legal profession and was appointed a King's Counsel in 1924. He became a criminal defence lawyer and acted as counsel in a number of famous cases including the second of the Brighton trunk murders. A member of the Liberal Party, he sat in Parliament for Nottingham East twice, first in 1923 and again in 1929.

Despite refusing appointment to the High Court of Justice in 1928, he was offered the position again in 1941 and accepted, joining the King's Bench Division. In 1945 he served as the alternate British judge at the Nuremberg trials, and he was made a privy counsellor in 1947. He joined the Court of Appeal in 1950 but retired in 1956 when he had served for long enough to draw a pension. From 1958 he served in the House of Lords, and his speech against a private bill in 1962 (the Bill sought to convert the Cumbrian lake Ullswater into a reservoir) saw it defeated by 70 votes to 36, two days before he died on 10 February 1962.

Described as "one of the most prominent Liberal barristers in the first half of the 20th century" and "the Lord Chancellor that never was", Birkett was noted for his skill as a speaker, which helped him defend clients with almost watertight cases against them. As an alternate judge, Birkett was not allowed a vote at the Nuremberg Trials, but his opinion helped shape the final judgment. During his tenure in the Court of Appeal he oversaw some of the most significant cases of the era, particularly in contract law, despite his avowed dislike of judicial work.
