What If, sometimes stylized as What If...?, is a comic book anthology series published by Marvel Comics whose stories explore how the Marvel Universe might have unfolded if key moments in its history had not occurred as they did in mainstream continuity. Since What If debuted in 1977, the comics have been published in 14 series as well as occasional stand-alone issues. In 2024, Marvel announced that What If...? would expand to include alternate explorations of continuity within other non-Marvel Universe properties owned by their parent company The Walt Disney Company from its fifteenth volume onwards, beginning with Aliens: What If...?, based on the Alien franchise, and followed by Marvel & Disney: What if...?, based on classic Disney characters.

In 2021, an animated series based on the What If comics premiered on Disney+, set in the Marvel Cinematic Universe's multiverse.

What If...? is an American animated anthology television series created by A. C. Bradley for the streaming service Disney+ based on the Marvel Comics series of the same name. It is the fourth television series in the Marvel Cinematic Universe (MCU) from Marvel Studios, the first animated series from the studio, and the first series produced by Marvel Studios Animation. The series explores alternate timelines in the multiverse that show what would happen if major moments from the MCU films occurred differently. Bradley served as head writer for the first two seasons, with Matthew Chauncey taking over for the third, and Bryan Andrews as the lead director.

Jeffrey Wright stars as the Watcher, who narrates the series, alongside many MCU film actors reprising their roles. Marvel Studios was developing the series for Disney+ by the end of 2018, with Bradley and Andrews on board. It was officially announced in April 2019. Marvel Studios' head of visual development Ryan Meinerding helped define the series' cel-shaded animation style, which was designed to reflect the films and take inspiration from classic American illustrators. Animation for the series was provided by Flying Bark Productions and Stellar Creative Lab, with Blue Spirit and Squeeze also working on the first season and SDFX Studios working on the second. Stephan Franck was head of animation for the first season and a director on the second and third seasons, with Scott Wright as head of animation for the second and third seasons. Chauncey was the series' story editor before replacing Bradley as head writer.

The first season of What If...? premiered on August 11, 2021, and ran for nine episodes until October 6, as part of Phase Four of the MCU. The second season was released daily from December 22 to 30, 2023, and the third and final season premiered on December 22, 2024, also released daily; both are part of Phase Five. The series has received generally positive reviews, with praise for the voice acting, animation, creative storylines, and scenarios, although the episodes' length and writing received some criticism. An interactive augmented and virtual reality story for the Apple Vision Pro headset, What If...? – An Immersive Story, was released in May 2024, and a spin-off series titled Marvel Zombies is set to premiere in September 2025.

What Remains is a 2003 photography book by Sally Mann. The book is published by Bullfinch Press and contains 132 images on the subject of death, including photographs of decomposing bodies. The book lent its name to the 2005 film about Sally Mann, *What Remains: The Life and Work of Sally Mann*, in which Mann can be seen at the University of Tennessee's anthropological facility, taking photos for the book of corpses which had specifically been left outside for scientific study of human decomposition. Mann opened her exhibition for the book at the Corcoran College of Art and Design in 2004. The exhibition was divided into five sections that "visually depict[ed] the eternal cycle of life, death, and regeneration."

Mann was inspired to produce the photographs in the book by her reactions to several different events. The first of these was the death of her father; later events that inspired her interest in death were the shooting of a prison escapee on the grounds of her Lexington, Virginia, farm and the death of her pet greyhound, Eva. Mann arranged for Eva's skin to be preserved by tanning and buried her body in a cage in order to prevent the remains from being carried off by wild animals. She later dug up the cage and photographed the dog's skeletal remains. A series of photos documenting Eva's decomposition is included in the book.

Despite the fact that some critics found the images off-putting, Mann expressed surprise that the book did not garner the controversy of her previous books which featured nude photos of her young children. While giving the book a favourable review, Blake Morrison expressed his surprise that no one had questioned her right to publish photographs of the dead when there had been extensive protests over her images of her children.

If there's any time when you're vulnerable, it's when you're dead. In life, those people had pride and privacy. I felt sorry for them. I thought if they knew I was taking photos, without them having a chance to comb their hair or put their teeth in, they'd die of shame. So I expected critics to ask: is this right?

Richard Lacayo from *Time* also spoke highly of the images in the book. Mann stated that she was under the impression that all of the people in the photos had signed release forms for photographs to be taken. Later, however, she learned that some of the corpses were of street people who had no opportunity to sign consent forms. After her experiences taking photos for the book Mann decided to arrange for her own body to be donated to science after her death.
