2000 Native API Reference (Circle)

White Horse, New Jersey

2012. "Census Population API". United States Census Bureau. Retrieved October 11, 2022. 2020 Census

School District Reference Map: Mercer County, United - White Horse is an unincorporated community and census-designated place (CDP) in Hamilton Township, Mercer County, New Jersey, in the United States. As of the 2020 United States census, the CDP's population was 9,791.

Angel Fire, New Mexico

Geographic Names Information System: Angel Fire, New Mexico "Census Population API". United States Census Bureau. Retrieved October 12, 2022. "Explore Census

Angel Fire is a village in Colfax County, New Mexico, United States. The population was 1,192 at the 2020 census. Angel Fire Resort is a popular skiing and snowboarding destination, with over 500 acres (2.0 km2) of slopes. Angel Fire and nearby communities experience cold winter temperatures and mild temperatures in the summer.

To the north, off of U.S. Route 64, is Vietnam Veterans Memorial State Park. Angel Fire is on the Enchanted Circle Scenic Byway.

Java version history

new APIs, such as Swing and Java2D, have been introduced, and many of the original JDK 1.0 classes and methods have been deprecated, and very few APIs have

The Java language has undergone several changes since JDK 1.0 as well as numerous additions of classes and packages to the standard library. Since J2SE 1.4, the evolution of the Java language has been governed by the Java Community Process (JCP), which uses Java Specification Requests (JSRs) to propose and specify additions and changes to the Java platform. The language is specified by the Java Language Specification (JLS); changes to the JLS are managed under JSR 901. In September 2017, Mark Reinhold, chief architect of the Java Platform, proposed to change the release train to "one feature release every six months" rather than the then-current two-year schedule. This proposal took effect for all following versions, and is still the current release schedule.

In addition to the language changes, other changes have been made to the Java Class Library over the years, which has grown from a few hundred classes in JDK 1.0 to over three thousand in J2SE 5. Entire new APIs, such as Swing and Java2D, have been introduced, and many of the original JDK 1.0 classes and methods have been deprecated, and very few APIs have been removed (at least one, for threading, in Java 22). Some programs allow the conversion of Java programs from one version of the Java platform to an older one (for example Java 5.0 backported to 1.4) (see Java backporting tools).

Regarding Oracle's Java SE support roadmap, Java SE 24 was the latest version in June 2025, while versions 21, 17, 11 and 8 were the supported long-term support (LTS) versions, where Oracle Customers will receive Oracle Premier Support. Oracle continues to release no-cost public Java 8 updates for development and personal use indefinitely.

In the case of OpenJDK, both commercial long-term support and free software updates are available from multiple organizations in the broader community.

Java 23 was released on 17 September 2024. Java 24 was released on 18 March 2025.

Saluda, South Carolina

United States Census Bureau. Retrieved October 15, 2022. "Census Population API". United States Census Bureau. Retrieved October 15, 2022. "U.S. Census website"

Saluda is a town in Saluda County, South Carolina, United States, along the Little Saluda River. The population was 3,565 at the 2010 census. It is the county seat of Saluda County.

Red River, New Mexico

all land. The Enchanted Circle Scenic Byway, also known as New Mexico Route 38, passes through Red River. As of the census of 2000, there were 484 people

Red River is a resort town in Taos County, New Mexico, US in the Sangre de Cristo Mountains. The population was 542 at the 2020 census. Red River is on the Enchanted Circle Scenic Byway, and is 36 miles (58 km) from Taos.

Eagle Nest, New Mexico

population was 290 at the time of the 2010 census. Located along the Enchanted Circle Scenic Byway, Eagle Nest is a small summer-home and resort destination.

Eagle Nest is a village in Colfax County, New Mexico. The population was 290 at the time of the 2010 census. Located along the Enchanted Circle Scenic Byway, Eagle Nest is a small summer-home and resort destination. Originally named Therma, the village was renamed Eagle Nest in the 1930s. The town is located in the Sangre de Cristo Mountains (a sub-range of the Rocky Mountains) in northern New Mexico near the Colorado border.

Wine (software)

implementations of the Windows API to be used as actual libraries for a Unix program. This allows for Windows code to be built into native Unix executables. Since

Wine is a free and open-source compatibility layer to allow application software and computer games developed for Microsoft Windows to run on Unix-like operating systems. Developers can compile Windows applications against WineLib to help port them to Unix-like systems. Wine is predominantly written using black-box testing reverse engineering, to avoid copyright issues. No code emulation or virtualization occurs, except on Apple silicon Mac computers, where Rosetta 2 is used to translate x86 code to ARM code. Wine is primarily developed for Linux and macOS.

In a 2007 survey by desktoplinux.com of 38,500 Linux desktop users, 31.5% of respondents reported using Wine to run Windows applications. This plurality was larger than all x86 virtualization programs combined, and larger than the 27.9% who reported not running Windows applications.

Windows 8

Retrieved June 18, 2013. "Windows 8.1 to support 3D printing through native API". Engadget. June 26, 2013. Retrieved August 6, 2013. "3D Printing Support

Windows 8 is a major release of the Windows NT operating system developed by Microsoft. It was released to manufacturing on August 1, 2012, made available for download via MSDN and TechNet on August 15, 2012, and generally released for retail on October 26, 2012.

Windows 8 introduced major changes to the operating system's platform and user interface with the intention to improve its user experience on tablets, where Windows competed with mobile operating systems such as Android and iOS. In particular, these changes included a touch-optimized Windows shell and start screen based on Microsoft's Metro design language, integration with online services, the Windows Store, and a new keyboard shortcut for screenshots. Many of these features were adapted from Windows Phone, and the development of Windows 8 closely parallelled that of Windows Phone 8. Windows 8 also added support for USB 3.0, Advanced Format, near-field communication, and cloud computing, as well as a new lock screen with clock and notifications. Additional security features—including built-in antivirus software, integration with Microsoft SmartScreen phishing filtering, and support for Secure Boot on supported devices—were introduced. It was the first Windows version to support ARM architecture under the Windows RT branding. Single-core CPUs and CPUs without PAE, SSE2 and NX are unsupported in this version.

Windows 8 received a mostly negative reception. Although the reaction to its performance improvements, security enhancements, and improved support for touchscreen devices was positive, the new user interface was widely criticized as confusing and unintuitive, especially when used with a keyboard and mouse rather than a touchscreen. Despite these shortcomings, 60 million licenses were sold through January 2013, including upgrades and sales to OEMs for new PCs.

Windows 8 was succeeded by Windows 8.1 in October 2013, which addressed some aspects of Windows 8 that were criticized by reviewers and early adopters and also incorporated various improvements. Support for RTM editions of Windows 8 ended on January 12, 2016, and with the exception of Windows Embedded 8 Standard users, all users are required to install the Windows 8.1 update. Mainstream support for the Embedded Standard edition of Windows 8 ended on July 10, 2018, and extended support ended on July 11, 2023.

GTK

other platforms, including Microsoft Windows (interfaced with the Windows API), and macOS (interfaced with Quartz). There is also an HTML5 back-end named

GTK (formerly GIMP ToolKit and GTK+) is a free open-source widget toolkit for creating graphical user interfaces (GUIs) targeted at Linux and specifically GNOME (though with some use in other desktop environments). It is licensed under the terms of the GNU LGPL, allowing both free and proprietary software to use it.

The GTK team releases new versions on a regular basis. GTK 4 and GTK 3 are actively maintained, while GTK 2 is no longer supported. GTK 1 is independently maintained by the CinePaint project.

Hermosa Beach, California

Retrieved October 28, 2020. "2006 API Growth LEA List of Schools Report (CA Department of Education)". api.cde.ca.gov. "2006 API Growth LEA List of Schools Report

Hermosa Beach (Hermosa, Spanish for "Beautiful") is a beachfront city in Los Angeles County, California, United States. Its population was 19,728 at the 2020 U.S. Census. The city is located in the South Bay region of the Greater Los Angeles area; it is one of the three Beach Cities. Hermosa Beach is bordered by the other two, Manhattan Beach to the north and Redondo Beach to the south and east.

The city's beach is popular for sunbathing, beach volleyball, surfing, paddleboarding, bars, cycling and running. The city itself extends only about 15 blocks from east to west and 40 blocks from north to south, with Pacific Coast Highway running down the middle. Situated on the Pacific Ocean, Hermosa's average temperature is 70 °F (21 °C) in the summer and 55 °F (13 °C) in the winter. Westerly sea breezes lessen what can be high summertime temperatures in Los Angeles and elsewhere in the county and help keep the smog away 360 days of the year.

A paved path, called The Strand, runs along Hermosa's beach from Torrance Beach in the south approximately twenty miles north to Santa Monica. The Hermosa Beach Pier is at the end of Pier Avenue, which is one of the beach community's main shopping, dining and entertainment areas.
