Colombian Ramshorn Apple Snail in self-sustaining aquarium

June 3rd 2022.

The Colombian Ramshorn snail enjoys feeding on deposits of common green algae just as Ramshorn snails do.

The Colombian Ramshorn snail uses the operculum to shield away from fish attacks.

August 30th.

December 12th, 2022

Here is a nice side view of the snail.

Regular Ramshorn snails look very small compare to the size of the Colombian snail.

The Colombian snail feeds on deposits of green algae and fresh growing aquatic plants.

It learns the feeding time just like all my fish - and it comes to the feeding spot on time for treats.

Occasionally, I see the Colombian snail lays down for a whole day or even longer in different spots.

Eastern newts eat only small sized Ramshorn snails they can swallow in one take.
