I Know What You Did Last Summer is a 2025 American slasher film directed by Jennifer Kaytin Robinson, who co-wrote the screenplay with Sam Lansky from a story by Leah McKendrick and Robinson. It is the fourth installment in the I Know What You Did Last Summer franchise and a sequel to I Still Know What You Did Last Summer (1998). The film stars Madelyn Cline, Chase Sui Wonders, Jonah Hauer-King, Tyriq Withers, Sarah Pidgeon, Billy Campbell, Gabbriette Bechtel, and Austin Nichols, with Freddie Prinze Jr., and Jennifer Love Hewitt reprising their roles as Ray Bronson and Julie James from the first two films. The plot takes place 27 years after the Tower Bay murders in the second film, when another hook-wielding killer appears and begins targeting a group of friends one year after they covered up a car crash in which they killed someone.

Plans for a fourth film in the franchise started in 2014, when Mike Flanagan and Jeff Howard signed on to write a reboot with no connection to the previous installments. However, this version ultimately fell through. Following the cancellation of the 2021 television series adaptation, the project was relaunched when Robinson pitched her version to Sony Pictures. The film was put into early development in February 2023, with producer Neal H. Moritz returning. Prinze Jr. and Hewitt were confirmed to be returning in 2024, with the new cast members joining throughout the year. Filming took place between October 2024 and March 2025 in Sydney and Los Angeles.

I Know What You Did Last Summer premiered at the United Theater on Broadway in Los Angeles on July 14, 2025, and was theatrically released by Sony Pictures Releasing in the United States on July 18. The film received mixed reviews from critics and has grossed \$64.5 million worldwide.

"What Russia Should Do with Ukraine" (Russian: ??? ?????? ?????? ??????? ? ????????, romanized: Chto Rossiya dolzhna sdelat s Ukrainoy), is an article written by Timofey Sergeytsev and published by the Russian state-owned news agency RIA Novosti. The article calls for the full destruction of Ukraine as a state, as well as the full destruction of the Ukrainian national identity in accordance with Russia's aim to accomplish the "denazification" of the latter.

It was published on 3 April 2022 in the context of the ongoing Russian invasion of Ukraine, on the same day as the bodies of dozens of civilians were discovered after the retreat of Russian forces from Ukrainian city of Bucha. The article caused international criticism and outrage and has been condemned as evidence of genocidal intent.

I Know What You Did Last Summer is a 1997 American slasher film directed by Jim Gillespie and written by Kevin Williamson. It stars Jennifer Love Hewitt, Sarah Michelle Gellar, Ryan Phillippe, and Freddie Prinze Jr., with supporting roles played by Johnny Galecki, Bridgette Wilson, Anne Heche, and Muse Watson. The first installment in the I Know What You Did Last Summer franchise, it is loosely based on the 1973 novel by Lois Duncan. The film centers on four teenage friends who are stalked by a hook-wielding killer one year after covering up a car accident in which they supposedly killed a man. It also draws inspiration from the urban legend known as "the Hook", as well as the slasher films *Prom Night* (1980) and *The House on Sorority Row* (1982).

Williamson was approached to adapt Duncan's source novel by producer Erik Feig. Where *Scream*, released the previous year, contained prominent elements of satire and self-referentiality, Williamson's script for *I Know What You Did Last Summer* reworked the novel's central plot to resemble a straightforward 1980s-era slasher film.

I Know What You Did Last Summer was released theatrically in the United States on October 17, 1997. It received a mixed reception from critics and grossed \$125.3 million worldwide on a budget of \$17 million, staying in first place at the U.S. box office for three consecutive weeks. The film was parodied in *Scary Movie* (2000) and is frequently referenced in popular culture, as well as being credited alongside *Scream* with revitalizing the slasher genre in the 1990s.

The film was followed by a sequel, *I Still Know What You Did Last Summer* (1998), in which Hewitt, Prinze Jr., and Watson reprised their roles. A straight-to-video standalone sequel, *I'll Always Know What You Did Last Summer* (2006), featured an entirely new cast. Following a television series adaptation released by Amazon Prime Video in 2021, a legacy sequel to the first two films was released by Sony Pictures in July 2025.

Cache (computing)

"Distributed Caching on the Path To Scalability"; MSDN. 24 (7). "What Every Programmer Should Know About Memory"; "Caching in the Distributed Environment";

In computing, a cache (KASH) is a hardware or software component that stores data so that future requests for that data can be served faster; the data stored in a cache might be the result of an earlier computation or a copy of data stored elsewhere. A cache hit occurs when the requested data can be found in a cache, while a cache miss occurs when it cannot. Cache hits are served by reading data from the cache, which is faster than recomputing a result or reading from a slower data store; thus, the more requests that can be served from the cache, the faster the system performs.

To be cost-effective, caches must be relatively small. Nevertheless, caches are effective in many areas of computing because typical computer applications access data with a high degree of locality of reference. Such access patterns exhibit temporal locality, where data is requested that has been recently requested, and spatial locality, where data is requested that is stored near data that has already been requested.

Thematic analysis is one of the most common forms of analysis within qualitative research. It emphasizes identifying, analysing and interpreting patterns of meaning (or "themes") within qualitative data. Thematic analysis is often understood as a method or technique in contrast to most other qualitative analytic approaches – such as grounded theory, discourse analysis, narrative analysis and interpretative phenomenological analysis – which can be described as methodologies or theoretically informed frameworks for research (they specify guiding theory, appropriate research questions and methods of data collection, as well as procedures for conducting analysis). Thematic analysis is best thought of as an umbrella term for a variety of different approaches, rather than a singular method. Different versions of thematic analysis are underpinned by different philosophical and conceptual assumptions and are divergent in terms of procedure. Leading thematic analysis proponents, psychologists Virginia Braun and Victoria Clarke distinguish between three main types of thematic analysis: coding reliability approaches (examples include the approaches developed by Richard Boyatzis and Greg Guest and colleagues), code book approaches (these include approaches like framework analysis, template analysis and matrix analysis) and reflexive approaches. They first described their own widely used approach in 2006 in the journal *Qualitative Research in Psychology* as reflexive thematic analysis. This paper has over 120,000 Google Scholar citations and according to Google Scholar is the most cited academic paper published in 2006. The popularity of this paper exemplifies the growing interest in thematic analysis as a distinct method (although some have questioned whether it is a distinct method or simply a generic set of analytic procedures).

Nothin' Matters and What If It Did is the fourth studio album by singer-songwriter John Mellencamp under his stage name John Cougar. Produced by soul pioneer Steve Cropper, the album includes the Top 40 hits "Ain't Even Done with the Night", which reached No. 17 on the Billboard Hot 100 as the album's second single, and "This Time", which peaked at No. 27 as the album's lead single.

The woman pictured on the album's cover and seen in the music video for "This Time" is actress Edith Massey, a member of the Dreamlanders troupe who often appeared in the films of John Waters. Massey was chosen because, as Mellencamp told Rolling Stone in late 1980, "I was looking for a typical heavy woman to convey a lower-middle-class way of living."

A remastered version of Nothin' Matters and What If It Did was released on Mercury/Island/UMe on March 29, 2005; it includes one bonus track, "Latest Game", which, according to the liner notes, was taken from the sessions for Mellencamp's 1982 album American Fool.

The album is certified Platinum by the RIAA.
