So You Want to Be President of the United States

"So You Think You Can Be President? is required reading not just for those of us who have had the audacity to ask ourselves that question, but for everyone."—Senator John Kerry What exactly does the leader of five legislative branches, ten executive branches, twenty departments, ninety-five independent agencies, and the free world do at his (or her) job every day? More importantly, what should the President of the United States (POTUS) know before she or he is elected? Have you ever thought, "I could do a better job than that bum in the White House"? Iris Burnett and Clay Greager have devised a hilarious test to see if you (yes, you) are qualified to be the next President of the United States. Tackling everything from your incredibly personal details (can you account for every penny you have ever made?) to your stance on hard-hitting issues like immigration, defense, and how many of your rich friends are going to get jobs they are totally unqualified for, So You Think You Can Be President? is a witty and uproarious send-up of our political process.

So You Want to Be My President? The ULTIMATE Voter's Guide

From assassinations to student riots, this is "a splendidly evocative account of a historic year—a year of tumult, of trauma, and of tragedy" (Arthur Schlesinger Jr.). In the United States, the 1960s were a period of unprecedented change and upheaval—but the year 1968 in particular stands out as a dramatic turning point. Americans witnessed the Tet offensive in Vietnam; the shocking assassinations of Martin Luther King Jr. and Robert Kennedy; and the chaos at the Democratic National Convention in Chicago. At the same time, a young generation was questioning authority like never before—and popular culture, especially music, was being revolutionized. Largely based on unpublished interviews and documents—including in-depth conversations with Eugene McCarthy and Bob Dylan, among many others, and the late Theodore White's archives, to which the author had sole access— 1968 in America is a fascinating social history, and the definitive study of a year when nothing could be taken for granted. "Kaiser aims to convey not only what happened during the period but what it felt like at the time. Affecting touches bring back powerful memories, including strong accounts of the impact of the Tet offensive and of the frenzy aroused by Bobby Kennedy's race for the presidency." — The New York Times Book Review

What Will It Take to Make A Woman President?

In the stunning novel *Hijacking of the American Presidency*, a disaffected faction of a major evangelical religious group seeks to put its own man in the White House, allowing it the ability to launch a preemptive

nuclear strike on nations believed to be the future enemy of America. To accomplish this, they are willing to assassinate political figures, including the sitting president. Disillusioned and fed up with what they consider the Twiddle-Dum, Twiddle-Dee syndrome of Washington politics, which has led to a never-ending dysfunctionality and the erosion of America's ethical and moral foundation, this ultra-conservative splinter group has picked the perfect candidate for the White House. The group is prepared to subvert the Constitution of the United States and assassinate anyone in its way to achieve its divine mandate. In a plot that includes the manipulation of the nation's leading scientists in nano-technology, the subversives plan to deliver time-delayed poisons to those in opposition. Faced with such an unprecedented threat, the religious unit of the Department of Homeland Security Anti-Terrorism Task Force has been called on to thwart the plot.

Broadcast to tens of millions of Americans, the presidential debates are the Super Bowl of politics. A good performance before the cameras can vault a contender to the front of the pack, while a gaffe spells national embarrassment and can savage a candidacy. The slim margin for error has led the two major parties to seek—and achieve, under the aegis of the bipartisan Commission on Presidential Debates—tight control through scripting, severe time limits, and the exclusion of third-party candidates. In *No Debate*, author and lobbyist George Farah argues that these staged recitations make a mockery of free and fair presidential elections. With urgency and clarity, this book reviews the history of presidential debates, the impact of the debates since the advent of television, the role of the League of Women Voters, the antidemocratic activity of the CPD, and the specific ways that the Republicans and Democrats collude to remove all spontaneity from the debates themselves. The author presents the complete text of a previously unreleased secret document between the Republicans and Democrats that reveals the degree to which the two parties—not the CPD—dictate the terms of the debates. In the final chapter, Farah lays out a compelling strategy for restoring the presidential debates as a nonpartisan, unscripted, public events that help citizens—not corporations or campaign managers—decide who is going to run the White House.

Awesome Adventures at the Smithsonian

People do what they were taught, whether it works or not. Jobs, relationships, money, and health are all a reflection of learned behaviors. Most people follow the path that was laid out before them. But what if that path leads to heartache, hopelessness or pure hell. What happens when the “right thing to do” no longer works? It's time to paint a prettier picture. This book is simply about deciding to take action. Planning a better life or a successful business is no different than an artist creating a new work of art. You decide how you want it to look. Follow the outline and before you know it, you have created a masterpiece in both your life and business. The key is to get started. There is no substitute for action. Stepping outside of your comfort zone is scary and not for the faint of heart. It is always shaky ground, because what comes next is an unknown. But the freedom of making your own choice is a lot more exhilarating than the stress of staying in the lines, drawn by someone else.
