TiddlyWiki is a personal wiki and a non-linear notebook for organising and sharing complex information. It is an open-source single page application wiki in the form of a single HTML file that includes CSS, JavaScript, embedded files such as images, and the text content. It is designed to be easy to customize and re-shape depending on application. It facilitates re-use of content by dividing it into small pieces called Tiddlers.

TiddlyWiki is an unusual example of a practical quine. The idea of producing a copy of its own source code lies at the heart of TiddlyWiki's ability to independently save changes to itself. Quine is also the name of the unofficial TiddlyWiki application for iPhone/iPad.

Tom Tiddler's Ground

Tom Tiddler's ground, also known as Tom Tidler's ground or Tommy Tiddler's ground, is a longstanding children's game. One player, "Tom Tiddler", stands

on a heap of stones, gravel, etc. Other players rush onto the heap, crying "Here I am on Tom Tiddler's ground, picking up gold and silver," while Tom tries to capture, or in other versions, expel the invaders. By extension the phrase has come to mean the ground or tenement of a sluggard, or of one easily outwitted; or to mean any place where money is picked up and acquired readily. The essence of the game lives on in more modern versions such as steal the bacon and variants of tag.
