

Thank You Cards Mixed Pack

Conan Gray

album Kid Krow and the track "Wish You Were Sober" on her personal Instagram story, to which Gray responded, "Thank you for being my lifelong songwriter"

Conan Lee Gray (born December 5, 1998) is an American singer, songwriter and former YouTuber. He was born in Lemon Grove, California, and raised in Georgetown, Texas where he began uploading vlogs, covers, and original songs to YouTube as a teenager. In 2018, Gray signed a record deal with Republic Records, which released his debut EP, *Sunset Season* (2018).

Bolstered by the commercially successful songs "Maniac" and "Heather", his studio album *Kid Krow* (2020) debuted at number five on the U.S. *Billboard* 200, making it the biggest U.S. artist debut of the year. His second studio album, *Superache* (2022), debuted in the top 10 in the U.S., the United Kingdom, Australia, Ireland, and the Netherlands. His third studio album *Found Heaven* was released in 2024 and debuted at number 14 on the U.S. *Billboard* 200. His fourth studio album *Wishbone* was released on August 15, 2025.

Pokémon

trading cards, in particular the booster packs, sealed packages of 11 randomly inserted cards that were sold separately from the main sets. The cards are

Pokémon is a Japanese media franchise consisting of video games, animated series and films, a trading card game, and other related media. The franchise takes place in a shared universe in which humans co-exist with creatures known as Pokémon, a large variety of species endowed with special powers. The franchise's primary target audience is children aged 5 to 12, but it is known to attract people of all ages. Pokémon is estimated to be the world's highest-grossing media franchise and is one of the best-selling video game franchises.

The franchise originated as a pair of role-playing games developed by Game Freak, from an original concept by its founder, Satoshi Tajiri. Released on the Game Boy on 27 February 1996, the games became sleeper hits and were followed by manga series, a trading card game, and anime series and films. From 1998 to 2000, Pokémon was exported to the rest of the world, creating an unprecedented global phenomenon dubbed "Pokémonia". By 2002, the craze had ended, after which Pokémon became a fixture in popular culture, with new products releasing to this day. In the summer of 2016, the franchise spawned a second craze with the release of *Pokémon Go*, an augmented reality game developed by Niantic.

Pokémon has an uncommon ownership structure. Unlike most IPs, which are owned by one company, Pokémon is jointly owned by three: Nintendo, Game Freak, and Creatures. Game Freak develops the core series role-playing games, which are published by Nintendo exclusively for their consoles, while Creatures manages the trading card game and related merchandise, occasionally developing spin-off titles. The three companies established the Pokémon Company (TPC) in 1998 to manage the Pokémon property within Asia. The Pokémon anime series and films are co-owned by Shogakukan. Since 2009, the Pokémon Company International (TPCi), a subsidiary of TPC, has managed the franchise in all regions outside Asia.

ZZ Top

24 on the Billboard chart. The album produced two popular singles: "I Thank You", a cover of the David Porter/Isaac Hayes composition originally recorded

ZZ Top is an American rock band formed in Houston, Texas, in 1969. For 51 years, it consisted of vocalist-guitarist Billy Gibbons, drummer Frank Beard, and bassist-vocalist Dusty Hill prior to his death in 2021. ZZ Top developed a signature sound based on Gibbons' blues style and Hill and Beard's rhythm section. They are known for their live performances, sly and humorous lyrics, and the matching appearances of Gibbons and Hill, who wore sunglasses, hats, and long beards.

ZZ Top formed after Gibbons' band, Moving Sidewalks, disbanded in 1969. Within a year, they signed with London Records and released ZZ Top's First Album in 1971. Albums *Tres Hombres* (1973) and *Fandango!* (1975), and singles "La Grange" and "Tush", gained extensive radio airplay. By the mid-1970s, ZZ Top had become renowned in North America for their live act, including the Worldwide Texas Tour (1976–77), which was a critical and commercial success. ZZ Top returned in 1979 with a new musical direction and image, with Gibbons and Hill wearing sunglasses and matching chest-length beards. With the album *El Loco* (1981), they began to experiment with synthesizers and drum machines. They established a more mainstream sound and rose to international stardom with *Eliminator* (1983) and *Afterburner* (1985), which integrated influences from new wave, punk, and dance-rock. The popularity of the albums' music videos, including for "Gimme All Your Lovin'", "Sharp Dressed Man", and "Legs", gave them mass exposure on MTV and made them prominent in 1980s pop culture. The *Afterburner* tour set records for the highest-attended and highest-grossing of 1986.

After the release of their 10th album, *Recycler* (1990), and its accompanying tour, the group's experimentation continued with mixed success on the albums *Antenna* (1994), *Rythmeen* (1996), *XXX* (1999), and *Mescalero* (2003). They released *La Futura* (2012) and *Goin' 50* (2019), a compilation album commemorating the band's 50th anniversary. By the time of Hill's death in 2021, ZZ Top had become the longest-running band with an unchanged lineup in the history of music. Per Hill's wishes, he was replaced by their longtime guitar tech, Elwood Francis, on bass.

ZZ Top has released 15 studio albums and sold an estimated 50 million records. They have won three MTV Video Music Awards, and in 2004, the members were inducted into the Rock and Roll Hall of Fame. In 2015, *Rolling Stone* ranked Gibbons the 32nd-greatest guitarist of all time. The band members have supported campaigns and charities including Childline, St. Jude Children's Research Hospital, and the Delta Blues Museum.

Ozzy Osbourne

atomic bombings of Hiroshima and Nagasaki as excessive, but in the song "Thank God for the Bomb" he supports the policy of nuclear deterrence in the Cold

John Michael "Ozzy" Osbourne (3 December 1948 – 22 July 2025) was an English singer, songwriter, and media personality. He co-founded the pioneering heavy metal band Black Sabbath in 1968, and rose to prominence in the 1970s as their lead vocalist. During this time, he adopted the title "Prince of Darkness". He performed on the band's first eight studio albums, including *Black Sabbath*, *Paranoid* (both 1970) and *Master of Reality* (1971), before he was fired in 1979 due to his problems with alcohol and other drugs.

Osbourne began a solo career in the 1980s and formed his band with Randy Rhoads and Bob Daisley, with whom he recorded the albums *Blizzard of Ozz* (1980) and *Diary of a Madman* (1981). Throughout the decade, he drew controversy for his antics both onstage and offstage, and was accused of promoting Satanism by the Christian right. Overall, Osbourne released thirteen solo studio albums, the first seven of which were certified multi-platinum in the United States. He reunited with Black Sabbath on several occasions. He rejoined from 1997 to 2005, and again in 2012; during this second reunion, he sang on the band's last studio album, *13* (2013), before they embarked on a farewell tour that ended in 2017. On 5 July 2025, Osbourne performed his final show at the *Back to the Beginning* concert in Birmingham, having announced that it would be his last due to health issues. Although he intended to continue recording music, he died 17 days later.

Osbourne sold more than 100 million albums, including his solo work and Black Sabbath releases. He was inducted into the Rock and Roll Hall of Fame as a member of Black Sabbath in 2006 and as a solo artist in 2024. He was also inducted into the UK Music Hall of Fame both solo and with Black Sabbath in 2005. He was honoured with stars on the Hollywood Walk of Fame on 12 April 2002 and Birmingham Walk of Stars on 6 July 2007. At the 2014 MTV Europe Music Awards, he received the Global Icon Award. In 2015, he received the Ivor Novello Award for Lifetime Achievement from the British Academy of Songwriters, Composers and Authors.

Osbourne's wife and manager Sharon founded the heavy metal touring festival Ozzfest, which was held yearly from 1996 to 2010. In the early 2000s, he became a reality television star when he appeared in the MTV reality show *The Osbournes* (2002–2005) alongside Sharon and two of their children, Kelly and Jack. He co-starred with some of his family in the television series *Ozzy & Jack's World Detour* (2016–2018) as well as *The Osbournes Want to Believe* (2020–2021).

Wii U

Nintendo's continuous growth, but we cannot tell you what, when and how we will release it here. Thank you for your understanding. "After false starts, Nintendo

The Wii U (WEE YOO) is a home video game console developed by Nintendo as the successor to the Wii. Released in late 2012, it is the first eighth-generation video game console and competed with Microsoft's Xbox One and Sony's PlayStation 4.

The Wii U is the first Nintendo console to support HD graphics. The system's primary controller is the Wii U GamePad, which features an embedded touchscreen, a D-pad, analog sticks, and action buttons. The screen can be used either as a supplement to the main display or in supported games to play the game directly on the GamePad. The Wii U is backward compatible with Wii software and accessories. Games can support any combination of the GamePad, Wii U Pro Controller, Wii Remote, Nunchuk, Balance Board, or Classic Controller. Online functionality centered around the Nintendo Network platform and Miiverse, an integrated social networking service which allowed users to share content in game-specific communities.

Critical response to the Wii U was mixed. It was praised for its innovative GamePad controller, improvements to online functionality over the Wii, backward compatibility with Wii software and peripherals, and price. Its first-party game library, which included new entries in several of Nintendo's flagship franchises such as the Super Smash Bros. and Mario Kart series, was also well received. However, it received criticism for its user interface, hardware performance, and the GamePad's short battery life.

The Wii U is considered a commercial failure, with 13.56 million units sold worldwide before it was discontinued in January 2017. This was primarily credited to a weak lineup of launch games, limited third-party support, and poor marketing that failed to clearly distinguish the system from its predecessor. On March 3, 2017, Nintendo released the system's successor, the Nintendo Switch, which retained and refined concepts introduced with the Wii U. Most of the Wii U's exclusive games were later ported to the Switch.

Nijisanji

such as Nendoroid, pin-back buttons, acrylic stands, special voice packs, signed cards and more for anniversaries or special events. Below are all current

Nijisanji (????; stylized in all caps as NIJISANJI) is a virtual YouTuber agency owned by Anycolor Inc. (formerly Ichikara Inc.). The agency was founded in 2018 with the purpose of promoting the use of Live2D models and live streaming as opposed to the 3D and clips format popularized by Kizuna AI.

Alien (film)

was released on September 6 in the United Kingdom. It initially received mixed reviews, and won the Academy Award for Best Visual Effects, three Saturn

Alien is a 1979 science fiction horror film directed by Ridley Scott and written by Dan O'Bannon, based on a story by O'Bannon and Ronald Shusett. It follows a commercial starship crew who investigate a derelict space vessel and are hunted by a deadly extraterrestrial creature. The film stars Tom Skerritt, Sigourney Weaver, Veronica Cartwright, Harry Dean Stanton, John Hurt, Ian Holm, and Yaphet Kotto. It was produced by Gordon Carroll, David Giler, and Walter Hill through their company Brandywine Productions and was distributed by 20th Century-Fox. Giler and Hill revised and made additions to the script; Shusett was the executive producer. The alien creatures and environments were designed by the Swiss artist H. R. Giger, while the concept artists Ron Cobb and Chris Foss designed the other sets.

Alien premiered on May 25, 1979, the opening night of the fourth Seattle International Film Festival. It received a wide release on June 22 and was released on September 6 in the United Kingdom. It initially received mixed reviews, and won the Academy Award for Best Visual Effects, three Saturn Awards (Best Science Fiction Film, Best Direction for Scott, and Best Supporting Actress for Cartwright), and a Hugo Award for Best Dramatic Presentation. *Alien* grossed \$78.9 million in the United States and £7.8 million in the United Kingdom during its first theatrical run. Its worldwide gross to date has been estimated at between \$104 million and \$203 million.

In subsequent years, *Alien* was critically reassessed and is now considered one of the greatest and most influential science fiction and horror films of all time. In 2002, *Alien* was deemed "culturally, historically, or aesthetically significant" by the Library of Congress and was selected for preservation in the United States National Film Registry. In 2008, it was ranked by the American Film Institute as the seventh-best film in the science fiction genre, and as the 33rd-greatest film of all time by *Empire*. The success of *Alien* spawned a media franchise of films, books, video games, and toys, and propelled Weaver's acting career. The story of her character's encounters with the alien creatures became the thematic and narrative core of the sequels *Aliens* (1986), *Alien 3* (1992), and *Alien Resurrection* (1997). A crossover with the *Predator* franchise produced the *Alien vs. Predator* films, while a two-film prequel series was directed by Scott before *Alien: Romulus* (2024), a standalone sequel, was released. A television prequel written by Noah Hawley and produced by Scott, *Alien: Earth*, was released on FX on Hulu on August 12, 2025.

Short n' Sweet

written shortly after the album was finished, and decided to release as a "thank you" to her fans. On February 4, 2025, Carpenter announced a deluxe edition

Short n' Sweet is the sixth studio album by American singer Sabrina Carpenter. It was released on August 23, 2024, through Island Records. The album is a primarily pop record. *Short n' Sweet* was produced by Julian Bunetta, John Ryan, Ian Kirkpatrick, and Jack Antonoff. The album explores Carpenter's love life and her perspectives on 2020s dating. Its title is a reference to the emotional impact of her shortest romantic relationships, as well as her short stature and the album's brief runtime. She stated that *Short n' Sweet* is her second "big girl" album and personally feels like her sophomore album, as she has had complete creative control of her music starting from *Emails I Can't Send* (2022), her first album with Island Records.

Two singles, "Espresso" and "Please Please Please", preceded the album's release; both topped the *Billboard* Global 200 chart and exposed Carpenter to wider commercial success. The two also marked her first number-ones on the *UK Singles Chart* and the latter her first in the *US Billboard Hot 100*. The third single, "Taste", peaked at number one in the *UK* and number two in the *US*. *Short n' Sweet* topped the record charts in 18 countries and received certifications in 10 nations. "Bed Chem" and "Juno" were released as the fourth and fifth singles. To support the album, Carpenter embarked on the *Short n' Sweet Tour*, the first arena tour of her career, in September 2024.

Upon release, Short n' Sweet received acclaim from music critics, who praised the confidence of the lyrics and the music's enjoyability, although some criticized the songwriting as serviceable and low-risk. Short n' Sweet and its tracks received eight nominations at the 67th Annual Grammy Awards, including Album of the Year, and won for Best Pop Vocal Album and Best Pop Solo Performance for "Espresso". Carpenter became one of the only fifteen artists in history to receive nominations in all four main General Field categories in a single night. She also released a deluxe edition of the album including a duet version of "Please Please Please" with Dolly Parton and "Busy Woman".

List of Google Easter eggs

Memorial Day will start a sequence saying "For all who sacrificed" and "Thank you" with poppies at the bottom.[citation needed] Nearing the 2024 theatrical

The American technology company Google has added Easter eggs into many of its products and services, such as Google Search, YouTube, and Android since the 2000s. Google avoids adding Easter eggs to popular search pages, as they do not want to negatively impact usability.

While unofficial and not maintained by Google itself, elgooG is a website that contains all Google Easter eggs, whether or not Google has discontinued them.

List of Mr. Bean: The Animated Series episodes

Friend | Special Episode | 10 Million Fan Thank You!",. Archived from the original on 20 December 2021 – via YouTube. Mr Bean (7 July 2025). Operation: Supermarket

This is a list of episodes of Mr. Bean: The Animated Series, a British animated comedy television series produced by Tiger Aspect Productions for ITV and CITV and based on the original live-action sitcom of the same name created by and starring Rowan Atkinson as the title character. It premiered on 2 March 2002 and originally ended on 1 November 2004.

On 22 January 2014, CITV announced a revival of the series with Atkinson and other cast members reprising their roles. 52 new episodes were broadcast from 16 February 2015 to 10 March 2016.

On 6 February 2018, CITV announced a third series of the show, which features a total of 26 episodes. Series 3 premiered on 9 April 2019 on CITV as well as on Turner channels worldwide.

On 4 January 2024, it was announced that the series was commissioned for a fourth run.
