The T-80 is a main battle tank (MBT) that was designed and manufactured in the former Soviet Union and manufactured in Russia. The T-80 is based on the T-64, while incorporating features from the later T-72 and changing the engine to a gas turbine. When it entered service in 1976, it was the first production tank to be powered solely by turbine.

The chief designer of the T-80 was Soviet engineer Nikolay Popov. The T-80U was last produced in 2001 in a factory in Omsk, Russia. In 2023, the CEO of Uralvagonzavod announced that production would restart.

The Ukrainian T-80UD diesel engine variant continued to be produced in Ukraine. The T-80 and its variants are in service in Belarus, Cyprus, Egypt, Kazakhstan, Pakistan, Russia, South Korea, Ukraine and Uzbekistan. Ukraine further developed the T-80UD as the T-84.

Iowa 80

Iowa 80 is the world's largest truck stop, located along Interstate 80 off exit 284 in Walcott, Iowa. It sits on a 220-acre (89 ha) plot of land, three times larger than an average 75 acres (30 ha) truckstop, and it receives 5,000 visitors daily. Iowa 80 features a 67,000 sq ft (6,200 m²) main building, parking for 900 trucks, 15 diesel fuel pumps, and also has a dedicated pump for dispensing bulk diesel exhaust fluid. Four-hundred and fifty employees staff the megaplex.

Iowa 80 is currently affiliated with the TravelCenters of America chain.

Audi 80

The Audi 80 is a compact executive car produced by the Audi subdivision of the Volkswagen Group across four generations from 1966 to 1996. It shared its platform with the Volkswagen Passat from 1973 to 1986 and was available as a saloon, and station wagon — the latter marketed by Audi as the Avant. The coupé and convertible models were not badged as members of the range, but used a derivative of the same platforms.

In North America and Australia, the 80 was marketed as the Audi Fox for model years 1973–1979, as the Audi 4000 for model years 1980–1987 in the US, as Audi 4000 5+5 from 1981 in the US, and Audi 5+5 in Australia during 1981 through 1983.

The Audi 90 was an upmarket version of the Audi 80, although all North American sedans of the B4 generation were called Audi 90.

BTR-80

The BTR-80 (Russian: ?????????????????, romanized: bronetransportyor, lit. 'armoured carrier';) is an 8×8 wheeled amphibious armoured personnel carrier (APC)

The BTR-80 (Russian: ?????????????????, romanized: bronetransportyor, lit. 'armoured carrier') is an 8×8 wheeled amphibious armoured personnel carrier (APC) designed in the Soviet Union. It was adopted in 1985 and replaced the previous vehicles, the BTR-60 and BTR-70, in the Soviet Army. It was first deployed during the Soviet–Afghan War.

The BTR-80 was developed into the larger BTR-90 in the early 1990s.

Pareto principle

(also known as the 80/20 rule, the law of the vital few and the principle of factor sparsity) states that, for many outcomes, roughly 80% of consequences

The Pareto principle (also known as the 80/20 rule, the law of the vital few and the principle of factor sparsity) states that, for many outcomes, roughly 80% of consequences come from 20% of causes (the "vital few").

In 1941, management consultant Joseph M. Juran developed the concept in the context of quality control and improvement after reading the works of Italian sociologist and economist Vilfredo Pareto, who wrote in 1906 about the 80/20 connection while teaching at the University of Lausanne. In his first work, Cours d'économie politique, Pareto showed that approximately 80% of the land in the Kingdom of Italy was owned by 20% of the population. The Pareto principle is only tangentially related to the Pareto efficiency.

Mathematically, the 80/20 rule is associated with a power law distribution (also known as a Pareto distribution) of wealth in a population. In many natural phenomena certain features are distributed according to power law statistics. It is an adage of business management that "80% of sales come from 20% of clients."

Interstate 80 (I-80) is an east–west transcontinental freeway that crosses the United States from San Francisco, California, to Teaneck, New Jersey, in the New York metropolitan area. The highway was

designated in 1956 as one of the original routes of the Interstate Highway System; its final segment was opened in 1986. At a length of 2,900.76 miles (4,668.32 km), it is the second-longest Interstate Highway in the United States, after I-90. It runs through many major cities, including Oakland, Sacramento, Reno, Salt Lake City, Omaha, Des Moines, and Toledo, and passes within 10 miles (16 km) of Chicago, Cleveland, and New York City.

I-80 is the Interstate Highway that most closely approximates the route of the historic Lincoln Highway, the first road across the United States. The highway roughly traces other historically significant travel routes in the Western United States: the Oregon Trail across Wyoming and Nebraska, the California Trail across most of Nevada and California, the first transcontinental airmail route, and the route of the first transcontinental railroad, except for the vicinity of the Great Salt Lake.

From near Chicago east to near Youngstown, Ohio, I-80 is a toll road, containing most of both the Indiana Toll Road and the Ohio Turnpike. I-80 runs concurrently with I-90 from near Portage, Indiana, to Elyria, Ohio. In Pennsylvania, I-80 is known as the Keystone Shortway, a non-tolled freeway that crosses rural north-central portions of the state on the way to New Jersey and New York City.

IAR 80

The IAR 80 was a Romanian World War II low-wing monoplane, all-metal monocoque fighter and ground-attack aircraft. When it first flew, in 1939, it was comparable to contemporary designs being deployed by the airforces of the most advanced military powers such as the Hawker Hurricane and Bf 109E. Production problems and lack of available armament delayed entry of the IAR 80 into service until 1941. It remained in frontline use until the end of the war.

Section.80 is the debut studio album by the American rapper Kendrick Lamar. It was released on July 2, 2011, by Top Dawg Entertainment (TDE). In the years leading up to its release, Lamar produced various mixtapes under the moniker K.Dot. In 2010, Lamar released *Overly Dedicated*, his fourth solo mixtape. Shortly after its release, he began working on Section.80.

The production of Section.80 was mainly handled by TDE in-house producers from production group Digi+Phonics, as well as THC, Tommy Black, Wyldfyer, Terrace Martin and J. Cole. A concept album, it features lyrical themes delivered by Lamar such as the 1980s crack epidemic, racism and the medication tolerance of millennials. The album features guest appearances from GLC, Colin Munroe, Ashtrobot, BJ the Chicago Kid, Schoolboy Q, Ab-Soul and vocals from singer-songwriter Alori Joh.

Section.80 received generally positive reviews from critics upon its release. The album debuted at number 113 on the US Billboard 200 and as of February 2014, it has sold 130,000 copies domestically. In April 2017, it was certified gold by the Recording Industry Association of America (RIAA).

80 Plus

80 Plus (trademarked 80 PLUS) is a voluntary certification program launched in 2004, intended to promote efficient energy use in computer power supply

80 Plus (trademarked 80 PLUS) is a voluntary certification program launched in 2004, intended to promote efficient energy use in computer power supply units (PSUs).

Certification is acquirable for products that have more than 80% energy efficiency at 20%, 50% and 100% of rated load, and a power factor of 0.9 or greater at 100% load.
