DC Comics

DC Comics (originally DC Comics, Inc., and also known simply as DC) is an American comic book publisher owned by DC Entertainment, a subsidiary of Warner

DC Comics (originally DC Comics, Inc., and also known simply as DC) is an American comic book publisher owned by DC Entertainment, a subsidiary of Warner Bros. Discovery. DC is an initialism for Detective Comics, a comic book series first published in 1937. DC Comics is one of the largest and oldest American comic book companies, the first comic under the DC banner being published in 1937.

The majority of its published stories are set in the fictional DC Universe and feature numerous culturally iconic heroic characters, such as Superman, Batman, Wonder Woman, and the Flash; as well as famous fictional teams, including the Justice League, the Teen Titans, the Suicide Squad, and the Legion of Superheroes. The universe contains an assortment of well-known supervillains, such as Lex Luthor, the Joker, Darkseid, and the antihero Catwoman. The company has published non-DC Universe-related material, including Watchmen, V for Vendetta, Fables, and many other titles, under the alternative imprint Vertigo and DC Black Label.

Originally at 432 Fourth Avenue in Manhattan, New York City, the company offices have been located at 480 and later 575 Lexington Avenue, 909 Third Avenue, 75 Rockefeller Plaza, 666 Fifth Avenue, and 1325 Avenue of the Americas. DC Comics was located at 1700 Broadway in Midtown Manhattan until April 2015, when DC Entertainment transferred its headquarters to Burbank, California.

In 2017, approximately 70% of the American comic book market was shared by DC Comics and its long-time major competitor Marvel Comics, though this figure may be distorted by the fact that sales of graphic novels are excluded. When all book sales are included, DC is the second largest publisher of comic books, after Viz Media, and Marvel is third.

AC/DC

AC/DC are an Australian rock band formed in Sydney in 1973. Their music has been variously described as hard rock, blues rock and heavy metal, although

AC/DC are an Australian rock band formed in Sydney in 1973. Their music has been variously described as hard rock, blues rock and heavy metal, although the band calls it simply "rock and roll". They are cited as a

formative influence on the new wave of British heavy metal bands. The band was inducted into the Rock and Roll Hall of Fame in 2003 and have sold over 200 million records worldwide, making them one of the best-selling artists of all time.

AC/DC were founded by brothers Angus (lead guitar) and Malcolm Young (rhythm guitar), with Colin Burgess (drums), Larry Van Kriedt (bass guitar) and Dave Evans (lead vocals). They underwent several line-up changes before releasing their debut Australasian-only album, *High Voltage* (1975). Membership stabilised after the release of *Let There Be Rock* (1977), with the Young brothers, Phil Rudd on drums, Cliff Williams on bass guitar and Bon Scott on lead vocals. Seven months after the release of *Highway to Hell* (1979), Scott died of alcohol poisoning and English singer Brian Johnson was then recruited as their new frontman. Their first album with Johnson, *Back in Black* (1980), dedicated to Scott's memory, became the second best-selling album of all time. Their eighth studio album, *For Those About to Rock* (1981), was their first album to reach number one on the *Billboard* 200. Rudd was fired partway through the *Flick of the Switch* sessions in 1983 and was replaced by Simon Wright, who was replaced by Chris Slade six years later.

AC/DC experienced a commercial resurgence in the early 1990s with the release of album *The Razors Edge* (1990); it was their only record to feature Slade, as Rudd returned in 1994. Rudd has since recorded five more albums with the band, starting with *Ballbreaker* (1995). Their fifteenth studio album, *Black Ice*, was the second highest-selling record of 2008 and their highest chart peak since *For Those About to Rock*, eventually reaching number one worldwide. The band's line-up remained the same for 20 years until 2014, when Malcolm retired due to early-onset dementia, from which he died three years later; additionally, Rudd was charged with threatening to kill and possession of methamphetamine and cannabis. Angus and Malcolm's nephew, Stevie Young, replaced Malcolm and debuted on the album *Rock or Bust* (2014). On the accompanying tour, Slade filled in for Rudd. In 2016, Guns N' Roses singer Axl Rose replaced Johnson for the rest of the tour dates due to a risk of hearing loss. Williams retired at the end of the tour and the band entered a two-year hiatus. A reunion of the *Rock or Bust* line-up was announced in September 2020; the band's seventeenth studio album, *Power Up*, was released two months later. Its supporting tour was announced in February 2024, with drummer Matt Laug and bassist Chris Chaney replacing Rudd and Williams, though both remain official members.

Washington, D.C.

Washington, D.C., officially the District of Columbia and commonly known as simply Washington or D.C., is the capital city and federal district of the

Washington, D.C., officially the District of Columbia and commonly known as simply Washington or D.C., is the capital city and federal district of the United States. The city is on the Potomac River, across from Virginia, and shares land borders with Maryland to its north and east. It was named after George Washington, the first president of the United States. The district is named for Columbia, the female personification of the nation.

The U.S. Constitution in 1789 called for the creation of a federal district under exclusive jurisdiction of the U.S. Congress. As such, Washington, D.C., is not part of any state, and is not one itself. The Residence Act, adopted on July 16, 1790, approved the creation of the capital district along the Potomac River. The city was founded in 1791, and the 6th Congress held the first session in the unfinished Capitol Building in 1800 after the capital moved from Philadelphia. In 1801, the District of Columbia, formerly part of Maryland and Virginia and including the existing settlements of Georgetown and Alexandria, was officially recognized as the federal district; initially, the city was a separate settlement within the larger district. In 1846, Congress reduced the size of the district when it returned the land originally ceded by Virginia, including the city of Alexandria. In 1871, it created a single municipality for the district. There have been several unsuccessful efforts to make the district into a state since the 1880s, including a statehood bill that passed the House of Representatives in 2021 but was not adopted by the U.S. Senate.

Designed in 1791 by Pierre Charles L'Enfant, the city is divided into quadrants, which are centered on the Capitol Building and include 131 neighborhoods. As of the 2020 census, the city had a population of 689,545. Commuters from the city's Maryland and Virginia suburbs raise the city's daytime population to more than one million during the workweek. The Washington metropolitan area, which includes parts of Maryland, Virginia, and West Virginia, is the country's seventh-largest metropolitan area, with a 2023 population of 6.3 million residents. A locally elected mayor and 13-member council have governed the district since 1973, though Congress retains the power to overturn local laws. Washington, D.C., residents do not have voting representation in Congress, but elect a single non-voting congressional delegate to the U.S. House of Representatives. The city's voters choose three presidential electors in accordance with the Twenty-third Amendment, passed in 1961.

Washington, D.C., anchors the southern end of the Northeast megalopolis. As the seat of the U.S. federal government, the city is an important world political capital. The city hosts buildings that house federal government headquarters, including the White House, U.S. Capitol, Supreme Court Building, and multiple federal departments and agencies. The city is home to many national monuments and museums, located most prominently on or around the National Mall, including the Jefferson Memorial, Lincoln Memorial, and Washington Monument. It hosts 177 foreign embassies and the global headquarters of the World Bank, International Monetary Fund, Organization of American States, and other international organizations. Home to many of the nation's largest industry associations, non-profit organizations, and think tanks, the city is known as a lobbying hub, which is centered on and around K Street. It is also among the country's top tourist destinations; in 2022, it drew an estimated 20.7 million domestic and 1.2 million international visitors, seventh-most among U.S. cities.

DC++

DC++ is a free and open-source, peer-to-peer file-sharing client that can be used for connecting to the Direct Connect network or to the ADC protocol.

DC++ is a free and open-source, peer-to-peer file-sharing client that can be used for connecting to the Direct Connect network or to the ADC protocol. It is developed primarily by Jacek Sieka, nicknamed arnetheduck.

DC-to-DC converter

A DC-to-DC converter is an electronic circuit or electromechanical device that converts a source of direct current (DC) from one voltage level to another

A DC-to-DC converter is an electronic circuit or electromechanical device that converts a source of direct current (DC) from one voltage level to another. It is a type of electric power converter. Power levels range from very low (small batteries) to very high (high-voltage power transmission).

Characters of the DC Extended Universe

The DC Extended Universe (DCEU) is a shared universe centered on a group of film franchises based on characters by DC Comics and distributed by Warner

The DC Extended Universe (DCEU) is a shared universe centered on a group of film franchises based on characters by DC Comics and distributed by Warner Bros. Pictures. Despite numerous film franchise in the past on characters such as Superman and Batman, none of those film series were connected. The DCEU debuted in 2013 with *Man of Steel*, centered on Superman, and has grown to include other characters such as Batman, Wonder Woman, and several others included in this list. The shared universe, much like the original DC Universe in the comics, was established by crossing over common plot elements, settings, cast, and characters, and crossed over with separate timelines from other DC-licensed film series in *The Flash* to create a "multiverse" before being largely rebooted as the new DC Universe franchise under new management from DC Studios, with the previous universe concluding in 2023 with *Aquaman and the Lost Kingdom*.

DC Universe (franchise)

The DC Universe (DCU) is an American media franchise and shared universe based on characters from DC Comics publications. It was created by James Gunn

The DC Universe (DCU) is an American media franchise and shared universe based on characters from DC Comics publications. It was created by James Gunn and Peter Safran, co-chairmen and co-CEOs of DC Studios. The DCU is a soft reboot of a previous franchise, the DC Extended Universe (DCEU), retaining select cast members and narrative elements but disregarding others. In contrast with the previous state of DC Comics adaptations, the DCU features a united continuity and story across live-action films and television, animation, and video games. Concurrent DC adaptations that do not fit this continuity are labeled "DC Elseworlds".

After Discovery, Inc. and WarnerMedia merged to become Warner Bros. Discovery (WBD), CEO David Zaslav revealed a plan to revitalize the DC brand following the poor reception of the DCEU. Gunn and Safran were hired to lead the newly formed DC Studios in November 2022 after working on several DCEU projects, including the film *The Suicide Squad* (2021) and its spin-off series *Peacemaker* (2022–present). The pair spent several months with a group of writers developing the overarching story for a new DC continuity, which features a combination of popular and obscure DC characters. Some DCEU projects in development were abandoned in favor of new takes, while others—including *Peacemaker*—continued within the new franchise. Certain DCEU actors reprise their roles in the DCU, while others are recast. Gunn and Safran wanted to focus on storytelling needs rather than forcing creators to complete their projects to meet specific release dates.

The story of the DCU is divided into chapters, starting with "Gods and Monsters" which began in 2024 with the animated series *Creature Commandos*. Gunn and Safran consider the chapter's first film, *Superman* (2025), to be the true beginning of the DCU.

DC Studios

DC Studios is an American film and television production company that is a division of Warner Bros. Discovery (WBD). It is responsible for the production

DC Studios is an American film and television production company that is a division of Warner Bros. Discovery (WBD). It is responsible for the production of live-action and animated films and television series, as well as video games, based on characters from the American comic book publisher DC Comics, primarily as part of its flagship media franchise and shared universe, the DC Universe (DCU). The studio has been led by writer/director James Gunn and producer Peter Safran as its co-chairmen and co-CEOs since it was formed in November 2022.

The studio's predecessor, DC Films, was formed in May 2016 as a division of Warner Bros. Pictures to oversee DC-based film productions, primarily those from its shared universe franchise the DC Extended Universe (DCEU). It was led by DC comic book and television writer Geoff Johns and Warner Bros. producer Jon Berg as co-chairmen. After several DCEU films received poor reception and underperformed financially, the duo stepped down by the end of 2017, and the division was reorganized, with Walter Hamada hired as the studio's president. Following the merger of DC and Warner Bros. owner WarnerMedia with Discovery, Inc. in April 2022, WBD overhauled operations, resulting in Hamada stepping down in October 2022. DC Films was then dissolved in favor of DC Studios, a new division with greater oversight of DC media. Gunn and Safran, who had worked on some DCEU projects, were hired to lead the studio, and the duo began work on the DCU as a new franchise to serve as a soft reboot of the DCEU.

From 2016 to 2023, DC Films produced 13 films within the DCEU, from *Suicide Squad* (2016) to *Aquaman and the Lost Kingdom* (2023), alongside two standalone films, *Joker* (2019) and *The Batman* (2022). *Joker* and the studio's film *Aquaman* (2018) are among the 50 highest-grossing films of all time, with *Joker*

becoming the first R-rated film to gross over \$1 billion. The first DC Studios production is the television series *The Penguin* (2024), a spin-off from *The Batman*. DC Studios plans to release films and television series within the DCU, starting with the animated series *Creature Commandos* in 2024, and the film *Superman* in 2025. Productions that are not part of the DCU are set to be part of the "DC Elseworlds" label. The studio's first animated film will be *Dynamic Duo* (2028).

DC Universe Animated Original Movies

The DC Universe Animated Original Movies (DCUAOM; also known as DC Universe Original Movies or DC Universe Movies or DC Animated Movies) are a series

The DC Universe Animated Original Movies (DCUAOM; also known as DC Universe Original Movies or DC Universe Movies or DC Animated Movies) are a series of American direct-to-video superhero animated films based on DC Comics characters and stories. From 2007 to 2022, films were produced primarily by Warner Bros. Animation but subsequently fell under DC Studios. Many films are stand-alone projects that are either adaptations of popular works or original stories.

From 2013 to 2024, the DC Animated Movie Universe was a subset of this series. The first story arc featured several films that took place in a shared universe, influenced predominantly by "The New 52". Following the first arc's conclusion with *Justice League Dark: Apokolips War* (2020), the "Tomorrowverse" series was launched beginning with *Superman: Man of Tomorrow* that same year and ended with a trilogy, *Justice League: Crisis on Infinite Earths* (2024). As of 2024, the DCUAOM line released 58 films that made a total of \$253 million in sales in the United States and Canada, an average of \$5.4 million per film.
