When Texas Prison Scams Religion

When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that "buys faith with favor" from prisoners. The state veritably ordains the prisoner a "Field Minister" that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ's executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his "100,000 Mothers' 1% Certainty Parole Texas Constitutional Amendment," which would revolutionize prison culture and save Texans millions of the

dollars.

A Guide for Dual-Career Couples

This book discusses the major challenges facing dual-career couples—a substantial proportion of modern society—and suggests ways for both individuals to achieve career success by re-evaluating traditional styles of working and focusing on productivity, flexibility, and negotiating win-win solutions. Women are becoming increasingly influential in the workforce; the era of men being the primary or only income-earner in a partnership is all but gone. Today, people tend to meet their spouse or domestic partner at school or at work. High achievers tend to pair with other high achievers, often in similar fields. This leads to couples in which both individuals are strongly motivated to have successful careers. What happens when they become parents or when one—or both—individuals need to consider relocating for their job? Many mid-career, college-educated people, especially women as well as undergraduate and graduate students, are concerned about developing a plan to mesh their career with a partner and are seeking guidance. This book offers a gender-neutral guide for 21st-century couples that will benefit men as much as women. The author provides career-management guidance for people in dual-career relationships in which both parties are ambitiously attempting to pursue equally important, high-powered careers, presenting examples of alternative solutions and arguing that many "women's issues"—including parenting and limited geographic mobility—are more appropriately managed in a gender-neutral way as dual-career couple issues. Readers will understand how to make better decisions regarding difficult situations, such as whether to accept an opportunity that adversely impacts their personal lives, choosing to take a leave of absence or to quit, investing a large amount of one person's salary for domestic assistance and childcare, taking paternity leave, and leveraging flexible work arrangements—for example, telecommuting.

Reframing Organizations

In this third edition of their best-selling classic, authors Lee Bolman and Terrence Deal explain the powerful tool of \"reframing.\" The authors have distilled the organizational literature into a comprehensive approach for looking at situations from more than one angle. Their four frames view organizations as factories, families, jungles, and theaters or temples: The Structural Frame: how to organize and structure groups and teams to get results The Human Resource Frame: how to tailor organizations to satisfy human needs, improve human resource management, and build positive interpersonal and group dynamics The Political Frame: how to cope with power and conflict, build coalitions, hone political skills, and deal with internal and external politics The Symbolic Frame: how to shape a culture that gives purpose and meaning to work, stage organizational drama for internal and external audiences, and build team spirit through ritual, ceremony, and story

One Market Under God

At no other moment in history have the values of business and the corporation been more nakedly and arrogantly in the ascendant. Combining popular intellectual history with a survey of recent business culture, Thomas Frank traces an idea he calls 'market populism' - the notion that markets are, in some transcendent way, identifiable with democracy and the will of the people. The idea that any criticism of things as they are is -litist can be seen in management literature, where downsizing and ceaseless, chaotic change are celebrated as victories for democracy; in advertising, where an endless array of brands seek to position themselves as symbols of authenticity and rebellion; on Wall street, where the stock market is identified as the domain of the small investor and common man; and in the right-wing politics of the 1990s and the popular theories of Tom Peters, Charles Handy and Thomas Friedman. One Market Under God is Frank's counterattack against the onslaught of market propaganda. Mounted with the weapons of common sense it is lucid and tinged with anger, betrayal and a certain hope for the future.

It'S Business, It'S Personal

Its Business, Its Personal is an appropriate reminder that building a successful and sustainable business depends on many interdependent factors, not just one latest flavor of the month practice. Saad also reminds us of the vital importance of foundational values and principles guiding an organization. The book goes beyond the theory of business success but also provides very practical how to guidance. Werner Geissler, Vice Chairman of Global Operations, Procter & Gamble Mr. Saad brilliantly demonstrates the need for consumer-centric purpose as a basis for enduring business success. Equally important is his conviction that good organizational practice is rooted in a strong value system. Equipped with twenty-five years of hard-earned business experience at Procter & Gamble, the author goes beyond lofty principles and provides time-honored advice on how to turn a vision into a winning in-market execution. Peter Corijn, Vice President for the Regional Business Unit of Gillette, Procter & Gamble I was proud to have worked with Saad and found him an effective leader a most honest and dependable associate. A person I would like to work with in any assignment. Fouad Kraytem, President Middle East Africa and General Export (MEAGE), Procter & Gamble Saad has captured a treasure trove of insights from his long career at P&G. Insights that contributed to the outstanding success of the subsidiaries he was an important part of. It is almost criminal that non-P&Gers are

offered the opportunity to read and learn from this book! Philippe Bovay, Vice President/General Manager , Procter & Gamble Pakistan Excellent synopsis of the entire business exercise of vision setting and its associated processes. Saad captures in tremendous detail the entire process and goes into great depth on how to drive organizational excellence without which the vision would be powerless. The key to executing this process with excellence is what I call BOF i.e. Brutal Obsession with Fundamentals. Al Rajwani, Vice President Arabian Peninsula and Pakistan, Procter & Gamble

Who Moved My Secret?

Who Moved My Secret? satirizes every aspect of The Secret, including the historical manuscripts in which it was supposedly found and the famous people who used it throughout history (as well as hypothesizing about the other famous people who wished they'd known of it, but didn't and paid the price). It explains the Law of Attraction, which means that if you're gullible enough to believe in it, Rhonda Byrne and her ilk will be attracted to your credit card number. In addition to its comic riffs, Who Moved My Secret? is augmented by lists, charts, monologue \"editorials\" by Harry Kurtzman — the atheist insult comic, dialogue sketches and affirmations, and choice bits of spiritual wisdom from the great teachers (such as the Great Chicken who provides all that soup for your soul) in an entertaining mélange. It also provides hands-on instruction on how to use the information contained in the book, how to handle the newfound success that will result from using it, and who to sue if it doesn't work (HINT: Not the author).

Corporate Risks and Leadership

The context of business has been changing for companies in recent years, and following numerous corporate and accounting scandals, many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law. Because of the existence of these new regulations, the level of control, the severity of sanctions by governments, and the amount of the fines for noncompliance have increased dramatically. In parallel, with the technological revolution in communications, business management has become more transparent, and any negative event is uploaded to social networks and shared with an indeterminate number of people. This change in the regulatory, sanctioning and technological context has forced large companies to rethink risks, investments and budgets to deal in this more complex environment. To transition to this change, some companies have included ethics and compliance programs in their corporate agenda, along with marketing and sales plans, strategies, growth targets, investment plans and/or talent acquisition. While each industry has its particular risks, in this book, the author describes the essential elements that any effective ethics and compliance program should contain. This book is a source of information that connects yesterday with today. The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves. The book covers theories of ethics but with an eye focused on practical application. Risks, ethics, and compliance are analyzed with an overall vision, connected to the reality of business life, without getting bogged down in abstract thinking or in technical and regulatory details. Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations. Thus, due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors, it seems appropriate that executives get access to a book about risks, ethics, compliance and human resources directed not only to compliance experts but also to any organizational leader. This book is a wake-up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law. If they do, they can better prevent and react to the difficult obstacle course of risks, dangers and threats that organizations face and that may jeopardize the sustainability, resilience, and survival of companies.

The *Untold Story of Women of Color in the League of Women Voters* explores ways in which these women have been marginalized and recognizes how their contributions will positively influence the organization as it moves into its next 100 years. On February 14, 2020, the League of Women Voters of the United States celebrated the 100th anniversary of its founding. Although women of color have always made significant contributions to women's suffrage and the women's movements, their contributions, particularly as they relate to the League of Women Voters (LWV), have been marginalized and relegated to the footnotes of the organization's history. The *Untold Story of Women of Color in the League of Women Voters* adds a new dimension to these conversations. The book is structured to show the progression of the relationship between the League of Women Voters and its members of color as manifested in changes to its policies, practices, symbols, and messaging. It begins with the suffrage movement and continues until the celebration of the 100th anniversary of the League and uses actual correspondence, convention minutes, existing League histories, and personal accounts to tell the League story. Chapter titles disclose the philosophical shifts in attitude at each stage of the organization's evolution.

The authors discuss his ideas, their influence and origins. They cover his contribution to learning theory, the recurring ethical themes in his writing, and the implications of his work for areas such as the education of migrants. They explore his global engagement as a scholar not only in different areas of lifelong education, but across the world: much-travelled, Peter Jarvis has supported the growth of adult education as a humane profession – as well as a field of study – in Africa, Asia, North and South America, and Australasia, as well as Europe. They also address the intense humanism of his work, which has been continually informed by theological and ethical concerns: though he taught for three decades at the University of Surrey, where he was Head of the Department of Educational Studies and is now Emeritus Professor, he has been a Minister of the Methodist Church for over half a century. This book was originally published as a special issue of the International Journal of Lifelong Education.

The Learning Adult

Public enterprises remain the most dominant medium of service provision in both developing and developed countries. During the 1990s and early 2000s, the outcry about poor performance of public enterprises was overwhelming. Nobody at that time and even now has managed to design a 'blue print' solution. And yet, the

fact that service provision through public enterprises is here to stay is the blunt truth. In *Making Public Enterprises Work - From Despair to Promise: A Turn Around Account*, Dr. William Muhairwe, the Managing Director of National Water and Sewerage Corporation of Uganda, discusses the approaches used to turnaround an under-performing state enterprise into a remarkable success story. Drawing on decades of experience, taming 'struggling' institutions, Dr. Muhairwe enumerates practical steps taken to make a significant difference in service delivery, for the benefit of any form of enterprise. Combined with facts, simplicity and fun, this book presents a unique account of methods used for constructive engagement and dialogue with donors, government officials, workers, suppliers and, indeed, the public/customers. All chapters are interspersed with tested lessons that any enterprise can benchmark to address its service delivery challenges. It is a great handbook for those involved in re-engineering their businesses. *Making Public Enterprises Work* contains unique home-grown turnaround reform steps that can help to revamp under-performing enterprises. It is the first book to demonstrate that performance contracts combined with incentives can work wonders in public enterprises. The book discusses how incentive rewards can spread to all levels of staff and encourage wholesome teamwork. It also looks at how enterprises can work without industrial unrest in very difficult conditions. In addition the book demonstrates how public enterprises that have been listed for privatisation can provide alternative restructuring steps.
