James Dobson

James Clayton Dobson Jr. (April 21, 1936 – August 21, 2025) was an American evangelical Christian author, psychologist and founder of Focus on the Family (FotF), which he led from 1977 until 2010. In the 1980s, he was ranked as one of the most influential spokesmen for conservative social positions in American public life. Although never an ordained minister, he was called "the nation's most influential evangelical leader" by *The New York Times* while *Slate* portrayed him as being a successor to evangelical leaders Jerry Falwell and Pat Robertson.

As part of his former role in the organization he produced the daily radio program *Focus on the Family*, which the organization has said was broadcast in more than a dozen languages and on over 7,000 stations worldwide, and reportedly heard daily by more than 220 million people in 164 countries. *Focus on the Family* was also carried by about 60 U.S. television stations daily. In 2010, he launched the radio broadcast *Family Talk* with Dr. James Dobson.

Dobson advocated for "family values"—the instruction of children in heterosexuality and traditional gender roles, which he believed are mandated by the Bible. The goal of this was to promote heterosexual marriage, which he viewed as a cornerstone of civilization that was to be protected from his perceived dangers of feminism and the LGBT rights movement. Dobson sought to equip his audience to fight in the American culture war, which he called the "Civil War of Values".

His writing career began as an assistant to Paul Popenoe. After Dobson's rise to prominence through promoting corporal punishment of disobedient children in the 1970s, he became a founder of purity culture in the 1990s. He promoted his ideas via his various *Focus on the Family* affiliated organizations, the *Family Research Council* which he founded in 1981, *Family Policy Alliance* which he founded in 2004, the *Dr. James Dobson Family Institute* which he founded in 2010, and a network of US state-based lobbying organizations called *Family Policy Councils*.

A Henson trust (sometimes called an absolute discretionary trust), in Canadian law, is a type of trust designed to benefit disabled persons. Specifically, it protects the assets (typically an inheritance) of the disabled person, as well as the right to collect government benefits and entitlements.

The key provision of a Henson trust is that the trustee has "absolute discretion" in determining whether to use the trust assets to provide assistance to the beneficiary, and in what quantity. This provision means that the assets do not vest with the beneficiary and thus cannot be used to deny means-tested government benefits. An example of such a benefit is the Ontario Disability Support Program.

In addition, the trust may provide income tax relief by being taxed at a lower marginal rate than if the beneficiary's total assets were considered. However if the trust was established for a person with a disability in Canada, who has qualified for the Disability Tax Credit the trustees can use the "Preferred Beneficiary election" and attribute the trust income to the beneficiary of the trust without actually paying it out. The trust beneficiary would file a tax return as if they earned the trust income. The trust beneficiary would use their personal exemptions and tax credits to reduce their taxable income. It can also be used to shield assets from matrimonial division in case of divorce of the beneficiary. In most cases, the trust assets are immune from claims by creditors of the beneficiary.

The Henson trust was first used in Ontario in the late 1980s. It became of wider interest when the Supreme Court of Ontario ruled in 1989 that the trust assets were not vested in the beneficiary and thus could not be used to terminate government benefit programs.

A Henson trust can be established as either a living trust, or a testamentary trust.

Batman is the eleventh studio album by American recording artist Prince and the soundtrack album to the 1989 film Batman. It was released on June 20, 1989, by Warner Bros. Records. As a Warner Bros. stablemate, Prince's involvement in the soundtrack was designed to leverage the media company's contract-bound talent as well as fulfill the artist's need for a commercial revival. The result was yet another multi-platinum successful cross media enterprise by Warner Bros., in the vein of Purple Rain.

The album stayed at number one on the Billboard 200 for six consecutive weeks, being his first number one album since *Around the World in a Day*, while its lead single, "Batdance", became his first number-one song since "Kiss". It is certified double platinum by the Recording Industry Association of America (RIAA).
