Feminine Feminists

Feminine Feminists was first published in 1994. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. What does it mean to be a woman today in Italy, a country with the lowest birthrate in the world and the heaviest maternal stereotype? Does being a feminist exclude practices of cultural femininity? What are Italian women's cultural productions? These questions are at the center of this volume, which looks at how feminism and femininity are embedded in a broad spectrum of Italian cultural practices. In recent years, several books have introduced the American public to Italian women's voices. This volume goes beyond others in its range of theoretical topics and modes, considering cultural practices not only in their popular, material appearance, but also in the disciplines and forms of knowledge that order information and circumscribe behavior. The essays, all by well-known scholars in Italian studies, reflect the authors' specific critical interests in cinema, fashion, literary texts, feminist theory, and popular culture, past and present. Some address the culture of everyday life, while others examine feminism and femininity in the context of philosophy, ethics, or national identity within a global culture. Some begin with the conviction that performing "femininity"—whether in appearance or in nurturing practices—can be culturally liberating. Others put this notion to the critical test. By situating the problem of femininity within the discussion of feminism, this volume takes on larger issues within feminist discourse. Its bold examination of the component of femininity within the context of women's experiences offers readers rare insight into Italian women's culture and into the multicultural possibilities of feminism. Contributors: Beverly Allen, Serena Anderlini-D'Onofrio, Lucia Chiavola Birnbaum, Renate Holub, Carol Lazzaro-Weis, Maria Marotti, Áine O'Healy, Graziella Parati, Eugenia Paulicelli, Robin Pickering-Iazzi, Maurizio Viano. Giovanna Miceli Jeffries is a lecturer in the department of French and Italian at the University of Wisconsin, Madison.

The book is a thematic overview of fashion in its widest sense imaginable: ranging from haute couture to street-style, from the one-off to the mass market, to the pret-a-porter. Prevention Act, and contains the first systematic analysis of Japanese jurisprudence and legislative amendments of law in relation to well-known trade marks and unfair competition. Wardrobe Crisis

Who makes your clothes? This used to be an easy question to answer: it was the seamstress next door, or the tailor on the high street – or you made them yourself. Today we rarely know the origins of the clothes hanging in our closets. The local shoemaker, dressmaker and milliner are long gone, replaced by a globalised fashion industry worth \$1.5 trillion a year. In *Wardrobe Crisis*, fashion journalist Clare Press explores the history and ethics behind what we wear. Putting her insider status to good use, Press examines the entire fashion ecosystem, from sweatshops to haute couture, unearthing the roots of today's buy-and-discard culture. She traces the origins of icons like Chanel, Dior and Hermès; charts the rise and fall of the department store; and follows the thread that led us from Marie Antoinette to Carrie Bradshaw. From a time when Ralph Lauren and Calvin Klein were just two boys from the Bronx, to the world of the global fashion juggernaut, where Zara's parent company produces more than 900 million garments annually, Press takes us on an insider's journey of discovery and revelation. *Wardrobe Crisis* is a witty and persuasive argument for a fashion revolution that will empower you to feel good about your wardrobe again. Clare Press is Marie Claire's fashion editor-at-large. She was previously the features director at Sunday Style and has worked as a fashion designer, brand consultant and editor, including stints as features director at Vogue, fashion critic at the Monthly and columnist at Instyle. Clare's fashion journalism has been published in Harper's Bazaar, Elle, Marie Claire, the Australian, the Sydney Morning Herald, the New York Times Magazine and many more. She is a passionate advocate for sustainable and ethical fashion, and sits on the Australian advisory board of Fashion Revolution.

The A to Z of the Fashion Industry

The history of clothing begins with the origin of man, and fashionable dress can be traced as far back as 25,000 years ago. Recent scientific explorations have uncovered graves in northern Russia with skeletons covered in beads made of mammoth ivory that once adorned clothing made of animal skin. The Ancient Egyptians, Greeks, and Romans each made major contributions to fashion's legacy from their textile

innovations, unique clothing designs and their early use of accessories, cosmetics, and jewelry. During the Middle Ages, \"fashion trends\" emerged as trade and commerce thrived allowing the merchant class to afford to emulate the fashions worn by royals. However, it is widely believed that fashion didn't become an industry until the industrial and commercial revolution during the latter part of the 18th century. Since then, the industry has grown exponentially. Today, fashion is one of the biggest businesses in the world, with hundreds of billions of dollars in turnover and employing tens of millions of workers. It is both a profession, an industry, and in the eyes of many, an art. The A to Z of the Fashion Industry examines the origins and history of this billion-dollar industry. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced entries on designers, models, couture houses, significant articles of apparel and fabrics, trade unions, and the international trade organizations.

Early Music History

Early Music History is devoted to the study of music from the early Middle Ages to the end of the seventeenth century. It demands the highest standards of scholarship from its contributors, all of whom are leading academics in their fields. The scope is exceptionally broad and includes manuscript studies, textual criticism, iconography, studies of the relationship between words and music and the relationship between music and society.

The Interior Circuit

The Interior Circuit is Goldman's story of his emergence from grief five years after his wife's death, symbolized by his attempt to overcome his fear of driving in the city. Embracing the DF (Mexico City) as his home, Goldman explores and celebrates the city which stands defiantly apart from so many of the social ills and violence wracking Mexico. This is the chronicle of an awakening, both personal and political, 'interior' and 'exterior', to the meaning and responsibilities of home. Mexico's narcotics war rages on and, with the restoration of the Institutional Revolutionary Party (the PRI) to power in the 2012 elections, the DF's special apartness seems threatened. In the summer of 2013, when Mexican organized-crime violence and deaths erupt in the city in an unprecedented way, Goldman sets out to try to understand the menacing challenges the city now faces. By turns exuberant, poetic, reportorial, philosophic, and urgent, The Interior Circuit fuses a personal journey to an account of one of the world's most remarkable and often misunderstood cities.

In Pursuit of Fashion

Schreier is a pioneer in the field of collecting fashion. Her interest began at a time when collecting and treating these creations as an art form was rare. She amassed a staggering breadth of work that reflects her wide-ranging taste and connoisseurship. An informative introduction discusses the unique evolution of Schreier's collecting in parallel with a developing field. The book also includes descriptions of more than eighty works, including rare works on paper, as well as a lively interview with Schreier that traces the progress of her collecting from its roots in Detroit to the present day.

The Journey

For hundreds of years consumers and scholars have acknowledged that food is affected by the same rapid shifts in taste and consumption as clothing. Trends in fashion and in food are increasingly being marketed in tandem and sold as fashionable commodities to reinforce capitalist power. Yet despite this, the reciprocal relationship between fashion and food has not been fully explored – until now. *Gastrofashion from Haute Cuisine to Haute Couture* examines the relationship between food and fashion in clothing, style, and dress in all its manifestations, from the restaurant to the catwalk, to cookbooks, diet fads, slow food, fast fashion, celebrity chefs, artists, and musical performers. It traces the relationship between food and fashion back to the Middle Ages, to the rise of social refinements in manners, speech, clothing, and taste, when behaviours and appearances reflected social status and propriety and where the social display of wealth and privilege were inseparable from food and clothing. Nowadays, designer eateries such as Pasticceria Prada and Armani Ristorante and the display of food on fashion catwalks are the precursors of the restaurants of pre-Revolutionary France and the spectacles of world fairs and exhibitions. This much-needed book offers a substantive and incisive discussion for all those interested in the complex interrelationship between food and fashion – scholars, students, and general readers alike.
