## Freeman on the land movement

*The freeman on the land movement (sometimes spelled freeman-on-the-land or abbreviated as FOTL), also known as the freemen of the land, the freemen movement*

The freeman on the land movement (sometimes spelled freeman-on-the-land or abbreviated as FOTL), also known as the freemen of the land, the freemen movement, or simply freemen, is a loose group of individuals who adhere to pseudolegal concepts and conspiracy theories implying that they are bound by statute laws only if they consent to those laws.

Freemen on the land are mostly present in Commonwealth countries. The movement appeared in Canada in the early 2000s, as an offshoot of the sovereign citizen movement which is more prevalent in the United States.

The name "freeman on the land" describes a person who is literally a "free man" on the land where they live. Movement members believe that they can declare themselves independent of the government and the rule of law, holding that the only "true" law is their own idiosyncratic interpretation of "common law". Freemen on the land also advocate schemes to avoid taxes which they consider to be illegitimate. In Canada, courts and scholars use the technical phrase "Organised Pseudolegal Commercial Arguments" (OPCA) as an umbrella term for freemen on the land, the precursor "Detaxer" movement, sovereign citizens, their pseudolegal theories and the vexatious litigation based on them.

Freeman on the land arguments are legally baseless. Besides Canada, freemen on the land's pseudolegal claims have been argued in the courts of Australia, the United Kingdom, New Zealand and Ireland but have always been rejected. The movement's influence peaked in Canada during the late 2000s and early 2010s; it has since declined significantly.

James Ruse (9 August 1759 – 5 September 1837) was a Cornish farmer who, at age 23, was convicted of burglary and was sentenced to seven years' transportation. He arrived at Sydney Cove, New South Wales, on the First Fleet with 18 months of his sentence remaining. Ruse applied to Colony Governor Arthur Phillip for a land grant, stating that he had been bred for farming. Governor Phillip, desperate to make the colony self-sufficient, allocated Ruse an allotment at Rose Hill (now Rosehill, near Parramatta), where he proved himself industrious and showed that it was possible for a family to survive in New South Wales through farming. Ruse received a land grant, from which he grew and sold 600 bushels of wheat 30 acres (120,000 m<sup>2</sup>). Ruse was the recipient of the first land grant in New South Wales. Ruse would later exchange the Rose Hill grant for more fertile land on the Hawkesbury River later in his life, after almost losing his farm and thus going bankrupt because of flooding, Ruse found work as a seaman, and later, a farm

overseer.

NIMBY

*unwanted land use Luddite Single-family zoning Smart growth Somebody else's problem  
Technophobia Urban planning Wind farm opposition YIMBY*

yes in my back - NIMBY (, or nimby), an acronym for the phrase "Not In My Back Yard", is a characterization of opposition by residents to proposed real estate development and infrastructure developments in their local area, as well as support for strict land use regulations. It carries the connotation that such residents are only opposing the development because it is close to them and that they would tolerate or support it if it were built farther away. The residents are often called nimbys, and their viewpoint is called nimbyism. The opposite movement is known as YIMBY for "yes in my back yard".

Some examples of projects that have been opposed by nimbys include housing development (especially for affordable housing or trailer parks), high-speed rail lines, homeless shelters, day cares, schools, universities and colleges, music venues, bike lanes and transportation planning that promotes pedestrian safety infrastructure, solar farms, wind farms, incinerators, sewage treatment systems, fracking, and nuclear waste repositories.

List of Story of Seasons video games

The Story of Seasons video game series was originally produced by Victor Interactive Software (acquired by Marvelous Entertainment in 2002), with Natsume Inc. handling the English translation and distribution in North America. The series debuted in Japan on August 9, 1996, with *Bokujō Monogatari* (????-, lit. "The Farm Story"), which later was released in the North American and PAL regions as *Harvest Moon*. *Story of Seasons* is a series of farm simulation/role-playing video games where the main objective is to maintain a farm over a period of time, tending the crops and livestock throughout the seasons, while befriending the nearby townsfolk and getting married in some games. *Story of Seasons* titles have been released on numerous different video game consoles and handheld game consoles. Several titles have been re-released on multiple platforms as special editions which include an updated gameplay. Fourteen spin-off titles have been released, featuring related elements. One of these titles, *Rune Factory: A Fantasy Harvest Moon*, was released to mark the 10th anniversary of the *Story of Seasons* series. One reason the *Story of Seasons* series has remained popular is because of the unchanged core system of the games. According to Yasuhiro Wada, *Story of*

Seasons' lead designer, it has been the development team's response to the audience's requests which has allowed the series to maintain its popularity.

Due to Natsume Inc. keeping the rights to the Harvest Moon name when Marvelous decided to have their own American division, Xseed Games, take over North American distribution, the newer titles in the series had to be renamed to Story of Seasons while Natsume Inc. took the opportunity to start their own Harvest Moon series of similar games starting with Harvest Moon: The Lost Valley. This has reportedly caused some degree of confusion among players and fans of the series.
