Radiators are heat exchangers used for cooling internal combustion engines, mainly in automobiles but also in piston-engined aircraft, railway locomotives, motorcycles, stationary generating plants or any similar use of such an engine.

Internal combustion engines are often cooled by circulating a liquid called engine coolant through the engine block and cylinder head where it is heated, then through a radiator where it loses heat to the atmosphere, and then returned to the engine. Engine coolant is usually water-based, but may also be oil. It is common to employ a water pump to force the engine coolant to circulate, and also for an axial fan to force air through the radiator.

Jeremy Clarkson

Jeremy Charles Robert Clarkson (born 11 April 1960) is an English television presenter, journalist, farmer, and author who specialises in motoring. He is best known for hosting the motoring television programmes Top Gear (2002–2015) and The Grand Tour (2016–2024) alongside Richard Hammond and James May. He also currently writes weekly columns for The Sunday Times and The Sun. Clarkson hosts the ITV game show Who Wants to Be a Millionaire? (2018–present), and stars in the farming documentary show Clarkson's Farm (2021–present).

From a career as a local journalist in northern England, Clarkson rose to public prominence as a presenter of the original format of Top Gear in 1988. Since the mid-1990s, he has become a recognised public personality, regularly appearing on British television presenting his own shows for the BBC and appearing as a guest on other shows. As well as motoring, Clarkson has produced programmes on subjects such as history and engineering; he has also written numerous books, primarily on cars. In 1998, he hosted the first series of Robot Wars. From 1998 to 2000, he also hosted his own talk show, entitled Clarkson.

In 2015, the BBC elected not to renew Clarkson's contract after he assaulted a Top Gear producer while filming on location. That year, Clarkson and his Top Gear co-presenters and producer Andy Wilman formed the production company W. Chump & Sons to produce The Grand Tour for Amazon Prime Video.

Clarkson's opinionated but humorous tongue-in-cheek writing and presenting style has often provoked a public reaction. His actions, both privately and as a Top Gear presenter, have also sometimes resulted in

criticism from the media, politicians, pressure groups, and the public. He also has a significant public following, being credited as a major factor in the resurgence of Top Gear as one of the most popular shows on the BBC. In 2006, the British public ranked him number 19 in ITV's poll of TV's 50 Greatest Stars.

Since 2019, he has become a farmer at Diddly Squat Farm for his show, Clarkson's Farm. The show received a positive reception and became a popular show on Prime Video upon its release. In May 2024, the "Clarkson's clause" amendment, named after Clarkson, was introduced; this clause makes it easier to convert unused agricultural buildings to commercial usage, something he did in Season 2 of the show when planning permission for his restaurant was denied.

List of Totally Spies! episodes

seventh season of Totally Spies! was announced by French television network Gulli in a YouTube video posted by Totally Spies! YouTube channel on September

The animated television series *Totally Spies!* follows the adventures of three Beverly Hills teenage girls—Sam, Clover, and Alex—who work as secret agents on missions to save the world, involving real locations and some fictional ones. The series comprises six seasons divided into 182 episodes. Framing each episode is a side story in which the girls deal with high school life and its situations. Most of the episodes are self-contained. In season 3, also titled *Totally Spies! Undercover*, the three girls share a villa, and at the end of that season, they are promoted to super spies in the organization and are referred to as such for season 4. Season 5 follows the girls' adventures as they continue onto university.

Totally Spies! premiered on November 3, 2001, on Fox Family (subsequently known as ABC Family, now called Freeform). It later premiered in Europe on channels such as Germany's ProSieben, France's TF1 and the United Kingdom's Channel 4 during the spring of 2002. The show was moved to Cartoon Network on July 7, 2003 where it enjoyed much success, and continued airing for a total of five seasons until 2009. It spawned a feature film *Totally Spies! The Movie* and a spin-off series *The Amazing Spiez!*.

In 2013, the show was revived for a sixth season, premiering at an event at the Palace of Versailles. Twenty-six episodes were broadcast on French television and networks across Europe starting on 4 September 2013. In Canada, the sixth season premiered on September 7, 2014 on Teletoon, and on September 6 on sister station Télétoon. The show has been broadcast worldwide on various networks, including TF1 in France, Teletoon in Canada, Cartoon Network in the US and Latin America, Network 10 in Australia, Rede Globo in Brazil, Disney Channel and Nickelodeon in Asia, Africa, and Europe (formerly Fox Kids and Jetix). The head writers for the show were Robert and Michelle Lamoreaux who were based in Los Angeles, and who had worked on Nickelodeon shows. The theme song for the first two seasons is "Here We Go" by Moonbaby (Miranda Cooper and Brian Higgins), but with lyrics changed slightly to fit the show. Seasons 3–5 use the same song but as instrumentals. During the closing credits of seasons 3–4, one of the girls, or occasionally Jerry or Mandy, talks directly to the camera about random topics which sometimes are tied to the episode theme. The sixth season uses a different theme song.

The seventh season premiered on May 12, 2024. The theme song is "Top Secret Mission", sung by Mila Branger.

On 13 June 2024, it was announced that the show has been renewed for an eighth season.

The Matrix

level you want to bring to it". Darren Aronofsky commented, "I walked out of The Matrix ... and I was thinking, 'What kind of science fiction movie can people

The Matrix is a 1999 science fiction action film written and directed by the Wachowskis. It is the first installment in the Matrix film series, starring Keanu Reeves, Laurence Fishburne, Carrie-Anne Moss, Hugo Weaving, and Joe Pantoliano. It depicts a dystopian future in which humanity is unknowingly trapped inside the Matrix, a simulated reality created by intelligent machines. Believing computer hacker Neo to be "the One" prophesied to defeat them, Morpheus recruits him into a rebellion against the machines.

Following the success of *Bound* (1996), Warner Bros. gave the go-ahead for *The Matrix* after the Wachowskis sent an edit of the film's opening minutes. Action scenes were influenced by anime and martial arts films, (particularly fight choreographers and wire fu techniques from Hong Kong action cinema). Other influences include Plato's cave and 1990s Telnet hacker communities. The film popularized terms such as the red pill, and popularised a visual effect known as "bullet time", in which a character's heightened perception

is represented by allowing the action within a shot to progress in slow motion while the camera appears to move through the scene at normal speed.

The Matrix opened in theaters in the United States on March 31, 1999, to widespread acclaim from critics, who praised its innovative visual effects, action sequences, cinematography and entertainment value. The film was a box office success, grossing over \$460 million on a \$63 million budget, becoming the highest-grossing Warner Bros. film of 1999 and the fourth-highest-grossing film of that year. The film received nominations at the 72nd Academy Awards for Best Visual Effects, Best Film Editing, Best Sound and Best Sound Effects Editing, winning all four categories. The film was also the recipient of numerous other accolades, including Best Sound and Best Special Visual Effects at the 53rd British Academy Film Awards, and the Wachowskis were awarded Best Director and Best Science Fiction Film at the 26th Saturn Awards. The Matrix is considered to be among the greatest science fiction films of all time, and in 2012, the film was selected for preservation in the United States National Film Registry by the Library of Congress for being "culturally, historically, and aesthetically significant".

The film's success led to two sequels by the Wachowskis, both released in 2003, The Matrix Reloaded and The Matrix Revolutions. The Matrix franchise was further expanded through the production of comic books, video games and an animated anthology film, The Animatrix, with which the Wachowskis were heavily involved. The franchise has also inspired books and theories expanding on some of the religious and philosophical ideas alluded to in the films. A fourth film, titled The Matrix Resurrections, directed solely by Lana Wachowski was released in 2021.

Paul William Walker IV (September 12, 1973 – November 30, 2013) was an American actor. He was best known for his role as Brian O'Conner in the Fast & Furious franchise.

Paul Walker began his career as a child actor in the 1980s, gaining recognition in the 1990s after appearing in the television soap opera The Young and the Restless; he received praise for his performances in the teen comedy She's All That and the comedy-drama Varsity Blues (both 1999), and rose to international fame by starring in The Fast and the Furious (2001).

He also starred in the commercially successful road thriller Joy Ride (2001), becoming an action star. He followed this with the box-office disappointments Into the Blue (2005) and Running Scared (2006), although he earned praise for his performance in the survival drama Eight Below and for his portrayal of Hank Hansen in Flags of Our Fathers (both 2006). Outside of these, Walker largely appeared in low-budget action films, but starred in the commercially successful heist film Takers (2010).

Walker died in a single-vehicle collision on November 30, 2013, as a passenger in a speeding car. His father and daughter filed separate wrongful death lawsuits against Porsche, which resulted in settlements. At the time of his death, Walker had not completed filming Furious 7 (2015); it was released after rewrites and stand-ins, including his brothers Cody and Caleb, were used to complete the film while the song "See You Again" by Wiz Khalifa and Charlie Puth was commissioned as a tribute.
